### PEOPLE YOU KNOW!

The Young Men's Christian Association of the city of Cleveland.

The Grand Rapids School Furniture Co., Grand Rapids, Mich.: GENTLEMEN—
Referring to your letter of March 2d, in reference to the chairs placed in our hall. We have, so far, had no occasion to find anything but satisfaction with the good-which you have placed in our hall. The automat c hinge is exceptionally valuable, and its working is thoroughly practical, and, as we believe, bound to badurable. We have had a number of inquities in reference to the place where we ought these chairs, and we are always glad to say a good word for them. We regret, however, that we allowed so many of the 18 in, chairs to be placed. The only complaints we have had have been from people who have felt that they were cramped for room. Hoping that you may have a large sale for your goods, I remain, yours truly,

Fred. S. Goodman, Secy.

ASSOCIATION BUILDING, PROVIDENCE, R. I., - 375 WESTMINSTER STREET.

Occupied, November 10, 1890.

Dimensions, 90x96 feet. Cost, \$190,000. Population in 1890, 131,000.

# ANNUAL REPORTS OF THE AGENTS OF THE INTERNATIONAL COMMITTEE,

To April 1, 1892.

### ANNUAL REPORT OF RICHARD C. MORSE,

General Secretary.

I.—In direct relation to the Committee:

1. The General Secretary has, as usual, attended the monthly meetings of the Committee and its sub-committees, and has conducted much of the correspondence necessitated by these meetings and connected with the general administration of the work.

2. The Committee's annual dinner was held in New York, November 19, attended by a large number of its members, secretaries and supporters.

A similar gathering occurred in Brooklyn, November 24.

II.—In relation to the secretaries and agents of the Committee:

1. The Committee has been obliged, as in former years, to employ the services, for short periods, of special agents, to help meet the demand for assistance over and above what its regular force was able to supply. The following gentlemen rendered satisfactory service in this capacity:

F. K. Sanders continued his duties as editor of *The Intercollegian*, and was assisted during part of the year by Warren H. Wilson. Mr. Sanders also served the Committee by visiting a number of Associations and by attending conferences and conventions as its representative.

E. L. Loudon again devoted considerable time and effort to the work

among commercial travelers.

George R. Witte spent several months in the employ of the Committee in the interest of the German department, visiting Philadelphia, St. Louis, Buffalo, Chicago, and Milwaukee.

E. A. Lawrence spent the most of April in aiding the building canvass in

Sioux City, Iowa, and over a week in May in Marion, Kansas.

John Coldwell, George H. Winslow, and C. H. Moorman were employed in the railroad department. The first two spent their time at Hinton, West Va., and the latter in the far west.

George N. Taylor spent the month of September in the city of Mexico.

H. P. Andersen visited several points in the south, and at the beginning of March, 1892, entered the service of the Committee as one of its secretaries.

James Garvie was employed for part of the year in work among the Indians in Dakota.

Frank A. Keller attended the college conference of the maritime provinces, and also represented the Committee at the Maine State Convention.

W. H. Morriss represented the Committee at a conference of Colored Associations in Richmond, Va.

2. In response to the requests of State Committees, arrangements were made for the representation of the Committee at the thirty-six State and Provincial Conventions held during the year closing March 1, 1892. Besides

its secretaries, four members of the Committee and fourteen other friends of the work co-operated in this representation and in aiding the state and provincial organizations at their annual meetings. Their names are given in the list of State Conventions.

**III.**—Conference at the office of the Committee:

1. Personal calls at the office for consultation by officers and friends of the Associations from all parts of the country have multiplied. Among the problems and emergencies discussed may be mentioned: Securing a qualified local or State Secretary; planning a building fund canvass or a building itself, involving criticism of architects' plans in the light of the best Association building experience; new phases in the metropolitan organization and the relation of some department of the local work to the others; some critical emergency in the state work in its relation to local organizations; and the treatment in state and local meetings of new themes relating to the development of various departments, such treatment as would make a positive contribution to Association literature.

### IV.-Correspondence:

- 1. The Chairman of the Committee has, as in former years, devoted much time to the consideration of the more important correspondence and work referred to. The General Secretary has, in this connection, often been in conference with the Chairman, and also has held similar conferences with the chairmen of the sub-committees.
- 2. The usual call for the week of prayer in November was issued, followed by an extended correspondence regarding its observance. Encouraging reports have been received from many Associations that followed the Committee's suggestions, and 561 Associations responded favorably to the International Convention's recommendation for a collection at that time in aid of the international work.
- 3. Correspondence with the contributing friends of the work was carried on as usual, and by the blessing of God on the efforts put forth the Committee was enabled to provide for the increased expenditures necessitated by the enlargement of the work.

Similar correspondence has been held with the Associations and friends contributing to the support of the foreign work of the Committee.

4. With the World's Committee at Geneva, Switzerland, correspondence has been continued with reference to its work and to the preparations for the twelfth World's Conference in Amsterdam, Holland, August 12–16. The American delegation at this conference numbered seventy-three. Papers were presented prepared by Edwin F. See, on "The General Secretary," and by Wm. D. Murray, on "The Spiritual Life and Work of the Associations," both of which had been translated into the languages of the conference. The reports indicated decided progress throughout the entire field.

### V.—Personal visitation:

To all the calls upon the General Secretary for personal visitation of Associations, and for attendance upon state and other conventions, it has been impracticable to respond favorably. But he attended (1) the International Convention at Kansas City; (2) the General Secretaries' Conference at St. Joseph; (3) the Students' Summer School at Northfield; (4) The twelfth World's Conference and a conference of the general secre-

taries of the continent of Europe at Amsterdam, and in connection with the trip numerous conferences with Association officers and Christian workers in London, Paris, and elsewhere; (5) the sessions of the special committee to prepare the "Topics for Young Men's Meetings and Bible Classes," of 1892, at Orange, N. J.

In addition, many consultations were held with Association officers and committees in different cities, and a number of anniversary and other ad-

dresses have been delivered.

He has also continued to serve upon the graduate committee of the Yale University Association; has aided the International Training School at Springfield, and the Association Training School at Chicago, as a trustee of each institution; and has cooperated with the National Council of Great Britain, as its corresponding member for America, and with the International Central Committee as its American honorary secretary.

In accordance with the urgent desire and instructions of the Committee the General Secretary sailed from New York February 6, to be absent

several months in the east, for the benefit of his health.

### ANNUAL REPORT OF ERSKINE UHL,

Office Secretary.

There has been the usual growth in the office work during the past year. Curtis M. Thorpe and John Glover have continued their valuable services. The latter has conducted the secretarial correspondence. In the absence of P. Augustus Wieting since February, on account of ill health, H. S. Ninde has taken up his work, and has edited the "Year Book" and other publications.

George L. Leonard has devoted most of his time to the college department. Several other helpers, both permanent and temporary, have been

employed.

The following statement of the secretarial work covers the efforts of all the International Secretaries, so far as reported to the office:

Since April 1, 1891, 52 applicants for positions in the secretaryship and

physical directorship have found places through our aid.

At the office, personal intercourse or correspondence, sometimes very extended, was held during the year with 139 others that were not prepared to undertake the work, or that found places in it through their own efforts. The visiting secretaries of the Committee frequently confer on the same subject with young men that do not come into any communication with the office.

On April 1, 1891, 17 vacancies were on record as needing our help; 83 applications have been added to these, making 100 altogether, for state secretaries and their assistants, for general secretaries and their assistants, and for physical directors. Of the 100 vacancies, we assisted in filling 52; 30 were filled through the action of others; 5 were postponed; and 13 now stand on our books. Among the 52 vacancies that we helped to fill, 2 were in general work.

Of the vacancies just mentioned 1 was in Canada; 5 in New England; 22 in New York, New Jersey and Pennsylvania; 13 in states west of these; and 11 at the south. In addition to the vacancies already referred to, advice has been sought from the secretaries of the Committee regarding at

least double the number mentioned above, but not so definitely as to warrant their entrance upon our register. And, of course, a very much larger amount of secretarial work in the aggregate is done by the State Committees and their secretaries, independently of the International Committee, than is done by representatives of the latter.

Besides attending to correspondence and many callers, a number of plans of Association buildings have been examined and considerable material has been prepared for publication. The effort to do thorough work on a new and complete edition of the "Hand Book" has resulted in unexpected delay in its appearance, which is greatly regreted.

### ANNUAL REPORT OF ROBERT WEIDENSALL,

Secretary.

I have traveled about 18,000 miles in 19 different states and one province, British Columbia; visited 79 cities and towns; called upon 58 Associations, and rendered special assistance to 42 of them.

I attended the International Convention at Kansas City, and the Secretaries' Conference at St. Joseph, Mo.; three State Conventions, at Harriman, Tenn., Milwaukee, Wis., and Sacramento, Cal.; one district conference, at Redlands, Cal.; one college conference, at the State University, Berkeley, Cal.; and was a delegate to the general synod of the Evangelical Lutheran Church, at Lebanon, Pa. I attended meetings of the State Committees of Nebraska, Tennessee, and California, and of the Executive Committee of the Pacific Northwest, and had frequent interviews with their traveling secretaries. I held 36 meetings with boards of directors, and 41 with committees and members of Associations in Alabama, Tennessee, Kansas, Colorado, Oregon, Washington, California, and British Columbia.

I made 20 public addresses on Association work, several being on dedicatory or anniversary occasions. I also addressed the students of Pomona College, Claremont, Cal., and four large gymnasium classes, drawn up in dress parade on the gymnasium floors, at San Jose, Sacramento, Stockton, and Riverside, Cal. The opening of the new building at Clinton, Iowa, was a unique occasion. Completely fitted and furnished for Association purposes under the supervision of the donor, W. J. Young, of that city, it was presented by him together with a large Bible and a beautiful American flag. In contrast with this, my work in a number of places has been in connection with embarrassing indebtedness on the Association building, as at Spokane, Wash., Vancouver, B. C., Santa Cruz, and Fresno, Cal. At Portland, Ore., and Redlands, Cal., I aided the Association in efforts to inaugurate a building movement; assisted in securing financial means for the state work in Nebraska. Tennessee, California, and the Pacific Northwest, and for the local Associations at Sacramento and Stockton, Cal. A large correspondence has included that with the agents of the International Committee in special charge of the college and railroad departments regarding the important phases of this work on the Pacific coast. By request I sent a communication to the second annual convention of Edgefield county, S. C., and have assisted in securing general secretaries for various fields, local and state. At the request of the State Committee of California I visited the Leland Stanford, Jr., and State Universities, advising with a meeting of the students and professors of the former regarding the organization of a College Association, and with the Association of the latter about a college conference which was soon to be held at the university. Just previous to the International Convention some time was spent in Kansas, conferring with the State Secretaries and the officers of leading Associations with reference to the proper sphere of Association work.

In all the visits effort was made to encourage and aid the Association employés and present them and their work in a true light before the Associations and the committees they serve. In all my addresses and conference I gave emphasis to certain important principles: 1. That the work must be largely directed and performed by volunteer effort. to this end there must be a simple yet complete classification and division of labor running through the whole organization, from the board of directors to the most unimportant sub-committee. 3. That in this division each director, committeeman, and active member be made responsible for some particular work, for which he is qualified, and which he must do until formally relieved. 4. That in a primal sense the general secretary is neither a director nor a doer, but rather an indispensable helper to both. 5. That the membership must be magnified as to what it will afford the individual and enable him to do for others, as well as in its helpfulness to the Association, church, and community. 6. That the training class for both theory and exercise must be multiplied in numbers and intensity. and training be along fundamental Association principles. 7. That there must be greater use of God's Word, and more dependence upon the Holy Spirit to interpret it and give adequate power for service.

My work has never before been so special yet so comprehensive. It has gained for me an intelligent and respectful hearing everywhere, and results have been immediate. I feel that the past year has been my best, and that the door has been opened to a higher plane of usefulness in the future, both to myself and others with whom I have had the good fortune

to come in contact.

## ANNUAL REPORT OF THOMAS K. CREE,

Secretary.

Office work has taken most of my time since my last annual report. My health has also prevented my responding to many calls for assistance in various departments of the work outside of the office. This has been a source of regret to me, and I hope soon to resume this class of duties with which my time has been so much occupied during the many years of my connection with the Committee. My work in the office has been largely with the finances, although not a little general supervision has fallen to my lot. I have also visited quite a number of Associations for consultation, and aided some of them in getting their financial affairs into good condition. I have kept up active connection with the work abroad, particularly in France, where I have been personally identified with it. The French work, both national and local, is making satisfactory progress. In Paris the membership has grown from 80 to 515, and the work in every department has improved in as great a ratio. A leading Parisian architect has recently visited this country, and, after studying a number of good Association buildings, has prepared the plans for an Association building for Paris.

which, with the lot already purchased, will cost one million francs (\$200,000). It is expected that the erection of this building will begin as soon as the plans are approved.

## ANNUAL REPORT OF L. D. WISHARD,

Secretary.

Since March 1, 1891, I have, as Secretary of the Central International Committee, prosecuted my tour of inquiry among young men, chiefly in the educational institutions of Egypt, Syria and Palestine, Persia, Turkey in Asia and Europe, Greece and Bulgaria.

I am now studying the organized Christian work in the universities of Germany, France, Switzerland, Scandinavia, and Great Britain. As soon as this tour is finished I shall return to the United States, where I hope to resume my active connection with the work of the American International Committee.

## ANNUAL REPORT OF HENRY E. BROWN,

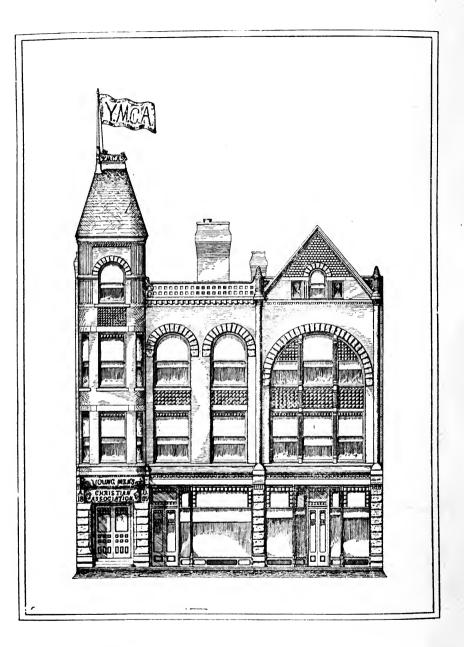

Secretary.

During the portion of the year given to the work of the International Committee, I attended first the three summer institutes of the Associations in the northwest, held respectively on Puget Sound, Lake of the Woods, and Lake Minnewaska. The latter has secured twenty acres of permanent grounds and erected good frame buildings for kitchen and dining hall. Each institute is developing special interest in Bible study by book outlines. After careful study of a book with reference to its leading thoughts and general trend, a key word or phrase is selected for each chapter, which seems adapted to recalling the leading thought, or at least a leading thought or fact, of the chapter. These key words, taken together, form the first draught of the proposed outline of the book. Each outline is brought into the class for study in connection with outlines prepared by others. It is also tested by some simple rules pertaining to analysis and memory which have been evolved by this method of study. After each outline has been revised it is committed to memory, and frequently reviewed at home and in class. This method of study was thoroughly discussed and was illustrated in many ways during the institutes. Plans were made for local secretaries and training classes to continue similar work through the year and present their outlines to the next institute for comparison and criticism. Outlines have been sent me from members of each institute for suggestions. One secretary sent me outlines of the whole New Testament, written from memory. This line of Bible work is becoming intensely interesting and promises large results in many directions.

I attended the State Conventions of Minnesota and Nebraska, in each of which much time was given for outline Bible study. The Minnesota convention was remarkable for the large preponderance of college students in attendance. The Nebraska convention emphasized very strongly the importance of every Association administering its affairs so as to close its year free of debt.

I attended also the Conference of General Secretaries at St. Joseph, the International Convention at Kansas City, and the annual meeting of

ASSOCIATION BUILDING, CHARLESTON, S. C.,

210 KING STREET.

OCCUPIED, JANUARY 1, 1890.

Dimensions, 52x160 feet. Cost, \$33,000. Population in 1890, 60,000.

International Secretaries at New York. I visited five colleges, the Young Men's Christian Association Training School at Chicago, and the Pratt Institute at Brooklyn, N. Y. Plans for buildings in several cities were also studied, and I met the building committee of Winnipeg, Man., and assisted in securing the pledges for the building in Duluth, Wis. I met the State Committees of Minnesota and Nebraska, and also the local boards of five cities.

## ANNUAL REPORT OF CLAUS OLANDT, JR.,

Secretary of the German Department.

During several months of the past year I was able only to do a little correspondence, on account of serious illness. I want to take this opportunity to thank the International Committee, and also the friends, far and near, for the great kindness and sympathy shown me and my family, in deed as well as in word, during this severe trial.

During my convalescence I was privileged to attend the World's Conference at Amsterdam, which to my observation showed greater and more rapid advancement in work among young men than any previous one.

I was able to return to my post October 1. Since then I have visited Buffalo, Philadelphia, St. Louis, New York, and Montreal. At Buffalo and Philadelphia I have spent considerable time during several visits. At the former city I assisted to increase the building fund by \$6,000. and at the latter to raise \$3,000 of the \$20,000 required to pay for the property and improvements. At St. Louis I took part in the dedication of a second building for German work, and in conference with the men of both branches. At New York I attended meetings for conference and also conferred with secretaries and officers. In an emergency I was sent to Montreal, where I spent a week in helping to increase the building I have also assisted in raising funds for the work of the International Committee. In all I have assisted in raising some \$15,000 since As formerly, I have devoted considerable attention to securing men as secretaries or assistants, and aiding them to obtain preparation. Two young men are now in training for the work, one as a secretarial volunteer, and the other at the Springfield School, physical department. Four men entered the work during the year while two have left it.

The secretarial force now numbers sixteen. Six men are employed at St. Louis, two at Milwaukee, two at New York, two at Philadelphia, and one each at Chicago, San Francisco, Buffalo, and Baltimore. In addition New York and Baltimore employ gymnasium instructors for part of their time.

I have corresponded with Quincy, Ill., and Evansville, Ind., about their new organizations. Aside from this I have conferred with the authorities in three other centers preliminary to organizing branches and employing secretaries.

Four years ago there were six branches employing five men as secretaries. Now there are ten German branches employing sixteen men. Then there were no gymnasium instructors employed. Now three of the sixteen above mentioned are Christian gymnasium instructors. Four years ago there was only one building, now there are six buildings valued at \$175,000. The Chicago German branch has a building fund started, the Buffalo branch has a fund of \$12,000, and the New York branch has \$11,500

pledged toward paying off its mortgage of \$20,000. During the last fouryears the membership has increased over 150 per cent.

December 6, 1891, a second German branch building, valued at \$25,000, was dedicated at St. Louis, in less than one year after the branch had been organized and a secretary employed, and within two years after the first German branch building had been dedicated. What is best of all, a number of young men have started a new life in Christ Jesus during the first year. Reports of spiritual blessings have been received from all the branches.

Daylight is dawning, and while our hearts beat with joy and gladness at all this growth and blessing, we will give Christ Jesus the glory, whose we are and whom we serve.

# ANNUAL REPORT OF C. K. OBER,

Secretary.

During the past year I have given over two months to the college work, in connection with the preparation for and conduct of the Student Summer Schools at Northfield, Mass., and Lake Geneva, Wis., and between six and seven months to general work at the south. I also attended the General Secretaries' Conference at St. Joseph, Mo., and the International Convention at Kansas City. One month before the end of the year covered by this report I accepted a leave of absence offered me by the Committee. In my southern work I have endeavored so far as possible togive continuity of supervision, with my residence at Atlanta, Ga., for Several of the states have required but little greater accessibility. assistance, as their state organizations have had the work well in hand. In other states the Associations were not strong, and the state work either entirely unorganized or in need of more or less attention. My object has been to strengthen the work of the State Committees and State Secretaries. and to give help at important points in states not having State Secretaries. aiding other local points only incidentally. I assisted the State Committee of Alabama in securing their present State Secretary, F. L. Willis, who entered upon his work in October. On the sudden retirement of the State Secretary of Georgia, and at the request of the State Committee and with permission of the International Committee, I undertook temporarily the work of acting State Secretary, the State Committee furnishing an office secretary. I performed this special service for a little over twomonths. I attended the State Conventions of 1891 in North Carolina, Alabama, Mississippi, Arkansas, and Texas, also a college conference in South Carolina, a meeting of southern secretaries in Atlanta, Ga., a meeting of the executive committee of the Southern Secretarial Institute at Knoxville, Tenn., meetings of the state executive committees of most of the southern states, and a meeting of the southern members of the International Committee. I also co-operated with Secretary F. S. Brockman in arranging the programme of his visitation of southern colleges, and with him and Secretary Mott in arranging for a college students' summer conferenceto be held at Knoxville, Tenn., next June. I have also co-operated with the executive committee of the Southern Secretarial Institute in arranging for a session to be held at the same time and place with the students' conference. I have also conferred with Secretary W. A. Hunton with reference to Association work among colored young men in the south,

and attended a conference at Orangeburg, S. C., in the interests of this work. I have also given considerable attention to work for railroad men in the south, particularly at Atlanta and Waycross, Ga. At Waycross I assisted in securing pledges for about \$600 towards the current expenses, and also aided in securing the present general secretary, Mr. Bridgman. H. P. Andersen, recently general secretary at Asheville, N. C., has entered the service of the International Committee with special reference to the work at the south, with his residence at Atlanta, and is giving attention to such unfinished work as I had in hand.

## ANNUAL REPORT OF P. AUGUSTUS WIETING,

Secretary.

My work during the past year has, as usual, been mostly confined to the general office. The work at that point has been as great as in any previous year, and the same amount of careful and painstaking effort has been necessary to meet the demands. Only those familiar with these demands can have any idea of the extent and variety of the quiet, but none the less necessary, efforts put forth at the Committee's headquarters. The correspondence has been larger than in any former year. The preparation of matter for printing, both in the "Year Book" and other reports, and in separate pamphlets, has been, as usual, one of the most engrossing items. The "Year Book" was issued May 6; the "Topics for Young Men's Meetings and Bible Classes," December 15; "The Intercollegian," monthly, until the close of the college year, since which time it has appeared as a department of the Young Men's Era. In addition to these, the following books and pamphlets have been added to the Committee's list of publications: "Outline of the Field and Work of the Associations;" "The Rise and Growth of the Associations;" "Standing Committees of an Association;" "The General Secretary;" "Office Cash Book;" "Treasurer's Cash Book;" "Appropriation Book;" "Subscription Register." The four first mentioned are portions of the revised "Hand Book," now in course of preparation, reprinted for convenience of circulation. The four financial books have been carefully prepared in connection with the "Hand Book," and are described in it. "Extension Work-What is it?" "Special Extension Work-How to Begin and Continue It" (for the use of committees and boards of directors); "The County Work, including the County Secretary" (Robert Weidensall); "The Correct Relation of the State Committee to the State Secretary and to the State Work" (Selden P. Spencer); "Is it Incumbent upon the American Associations to Promote Foreign Missions, and if so, What does this Suggest?" (John R. Mott); "Association Work in Foreign Mission Lands—Opportunities, Responsibilities, and Limitations" (C. E. Dyer); "The Relations of the American Associations to the Associations of Other Lands" (R. C. Morse); "The General Secretary" (E. F. See); "Extension Fund Record Book;" "Christ as a Personal Worker" (L. Wilbur Messer); "The Spiritual Life and Work of the Associations" (W. D. Murray); "Snares in the Path of the Young Men of to-day" (C. S. Holt); "Bible Study in the Associations" (W. K. Jennings); "Official Rules and Scoring Table for Athletic Contests;" "The Distinctive Features of our Physical Work" (Dr. Luther Gulick); "College Association Buildings"

(John R. Mott); "How to Secure a College Association Building" (John R. Mott); "The Claims of the General Secretaryship on Men of Education and Ability" (John R. Mott); "Constitution for a College Association;" "Constitution for a Railroad Association;" "Report of International Convention at Kansas City, 1891."

The constant demand for such pamphlets makes their preparation, revision, and publication constitute a very important department of the Committee's work—a department that has been steadily growing from year to

year.

The customary annual reports from all the Associations have been collected, and their summaries appear in the tables in this book. Further reports of the office work are given in the annual statements of other secretaries.

In addition to office duties, I attended the International Convention at Kansas City, and the General Secretaries' Conference at St. Joseph, and have visited the Associations at St. Louis, Albany, Saratoga Springs, Chicago, and Denver, my visit to the latter point being necessitated by ill health.

## ANNUAL REPORT OF JOHN R. MOTT,

College Secretary.

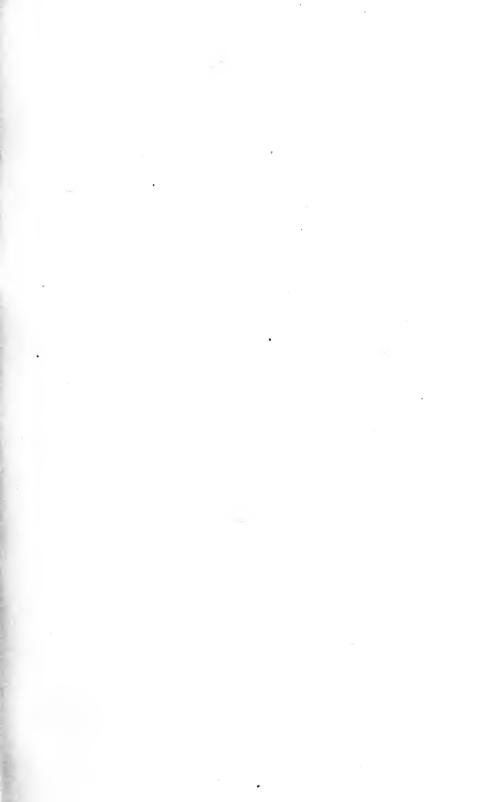

My work has taken me into every section of the United States (save the gulf states), as well as into Manitoba and British Columbia; and has necessitated over 30,000 miles of travel.

I. VISITATION.—Over four months were spent in visiting colleges, 48 institutions being reached. The larger part of this visitation has been in the far west. The colleges of that important section had not been touched by a representative of the Committee in five years, and my work was therefore largely that of a pioneer. In other parts of the country I have helped toward building up a number of model Associations. Special assistance has also been rendered to thirteen city Associations.

II. Organization.—In Colorado, Manitoba, and on the Pacific coast, I have organized twenty-four College Associations. In all but three of these there was absolutely no organized Christian work. Possibly the most important institution entered was the famous Leland Stanford Junior University, which is already the dominant factor among the educational forces of the far west. \*Mr. Brockman has organized about the same number of Associations in the south. The number of Associations in the intercollegiate movement has advanced during the year from 345 to fully 400. It will thus be seen that this advance has been almost entirely due to the direct work of the International Committee.

III. Conventions.—Fully four months have been occupied by twenty-one conventions. This number includes nine general Association gatherings, ten distinctively student conferences, and two conventions of a special character. Taking them as a whole, apart from other opportunities which they afforded, they have enabled me indirectly to touch, through the 2,500 student delegates, practically every part of the North American college field; and, in some measure, to help to mold the policy of the Associations which are seeking to cultivate that field.

IV. Points Receiving Special Attention.—In connection with my

ASSOCIATION BUILDING—NORTH SIDE GERMAN BRANCH— ST. LOUIS, MO.,

1907 St. Louis Avenue.

DEDICATED, DECEMBER 17, 1889.

Dimensions, 48x110 feet. Cost, \$26,315.

work in colleges and conventions, as well as elsewhere, the following matters have had a prominent place in my thoughts and efforts:

1. Detailed Study of the College Field.—By actual investigation and extended interviews, by a close examination of facts reported by delegates at conventions, and by careful analysis of the statistics compiled at the office, I have been able to make a more exhaustive study of the religious condition of the colleges than ever before. It has enabled me to define more clearly the problems in this field, and to arrive at a more satisfactory

policy concerning their solution.

- 2. Student Training Conferences.—The greatest need of the individual College Association is that of trained leaders. Much thought has been given to helping to meet this need through a scheme of training conferences: (1) Over a month of my time devoted to conventions was spent in helping to plan and conduct the student summer schools. At these the aim has been to train Bible class leaders and heads of other departments. (2) Another month was devoted to preparation for and leading the four deputation conferences. At these over seventy of the strongest college men of twenty-five states and provinces were trained for leadership in the development of the Associations of their respective sections. these men between two and three times as many colleges have been visited in some sections as by the old plan of secretarial visitation only. They stand for the true Association idea of voluntary effort by young men for young men. They constitute a body of thinkers on the college work, and have already evolved many advanced ideas. The deputation plan, with modifications suggested by experience, has received even stronger endorsement this year than last. Its success has led to: (3) Presidential confer-In a few states the deputation training conference idea and methods have been applied with great promise to training presidents of College Associations. This plan is sure to spread. Each of the above training conferences has an individuality. Taken as a whole they constitute the most hopeful feature in the internal development of the college They have marked the beginning of a new era in its life.
- 3. Bible Study Department.—At conferences and summer schools, as well as in visitation, Bible study has received special emphasis. Three men have rendered great assistance. Messrs. Speer and Messer kindly consented to prepare two series of studies for college students. They taught these courses in connection with the normal Bible classes at the summer schools, and have since permitted the Committee to publish them for wider circulation among the Associations. Prof. W. W. White also taught a course at one of the summer gatherings, and during the year has conducted a successful correspondence course with many Association classes. Largely as a result of these lines of special effort the number of students in voluntary Association Bible classes has increased during the year over one thousand.
- 4. Special Religious Work Among Students.—It has been my privilege to facilitate the movements of S. M. Sayford during the six months which he has given this year to work among the colleges. Within this short period over 2,500 professing Christian students have taken the higher ground stand, and nearly 300 conversions have been reported as a result of his labors. Another year's observation of this peculiar work leads me to state

that in my judgment Mr. Sayford is striking at the very center of several of the greatest problems which confront the Associations.

5. Student Volunteer Movement.—As the representative of the College Associations on the executive committee of this movement. I have given conconsiderable thought to its development. The principal effort of the year has been not the extension of the movement, but the organizing, stimulating, and directing of the various volunteer bands as organic parts of the The great problem now is not so much to secure new Associations. recruits as to care for the existing volunteers during the critical period of their college career. This involves careful organization, circulating printed matter, marking out courses of study, enlisting the volunteers in active work for missions on educational and financial lines, and making the bands self-perpetuating centers. I have helped to map out and direct the tour of J. C. White, the traveling secretary of this movement. He has been of special service not only to the volunteer department, but also to nearly every other phase of the college work.

6. College Movement Toward the Ministry, Secretaryship, etc.—At North-field, last summer, a movement was started to enlist more of our best college men in the distinctively Christian callings, such as the ministry, the general secretaryship, etc. It is not the purpose to create another organization, but rather to work through the channel of existing agencies. As a member of a committee to conserve and extend this interest, I have carried on a careful investigation to ascertain just what was needed. The result of extended inquiry in this direction shows that in only a small fraction of the colleges has there been anything practical either attempted or accomplished to turn students into these important fields of usefulness.

7. The Pervading Purpose of the Association.—Apart from the work of all other agencies the Holy Spirit has used the College Associations in leading over 2,000 students to become followers of Christ. In no preceding year have I been so deeply impressed with the presence of the revival spirit in the Associations.

## ANNUAL REPORT OF JOHN R. HAGUE,

Secretary.

The year has been devoted largely to emergency work. Sixteen Associations have been aided in various ways concerning new buildings; one through financial canvass and help in obtaining a loan to complete it; another was led to cancel an expensive building contract, stop work at the top of the foundation, re-arrange its plans, raise more money and provide for a floating debt. An endowment fund of \$5,000 was at this time providentially received, and aid was rendered in securing a general secretary and assistant. Three Associations were aided in conducting meetings for the formation of building funds, and several in arranging plans of buildings, securing lots, making applications for loans, reducing cost of buildings, etc.

Several disastrous failures were averted through the counsel and aid of the International Committee, not alone by its representative on the field, but by the constant correspondence and advice of its Chairman and General Secretary, and, in the cases of several Associations, by the efforts of Secretary Cree, at New York, in procuring loans on the buildings sufficient to complete them. The sooner all Associations adopt the wise policy of raising in advance all money needed, the better will be their entire work.

Five Associations were helped in raising debts or current expenses, New Hampshire in raising funds for the employment of a State Secretary, and subscriptions were obtained for the International Committee, amounting to \$5,252. Aid was also rendered in securing eight general

secretaries and one physical director for local Associations.

Twelve Railroad Associations were visited or variously aided; one through the securing of a gift of a large lot from a railroad director, another by securing through a presentation of the work to the officials of a monthly appropriation, two in planning re-arrangements of buildings, and seven in addresses made or religious meetings conducted.

The international railroad conference at Chicago was also attended and participated in, as well as the General Secretaries' Conference at St. Joseph, Mo., the International Convention at Kansas City, and the State Conventions of New Hampshire, New York, and Maryland, and the states associated with it.

Two visits each were made to the Association Training Schools at Springfield and Chicago, and an address on "Educational work in the Association" made at the latter. A very enjoyable visit was also made to the Western Secretarial Institute at Lake Geneva, Wis.

A year ago last December, through the liberality of the late Charles Pratt, of Brooklyn, the writer was instructed by the Committee to begin the search for a secretary who should devote his chief attention to the extension and improvement of the educational department of the Associations, introducing such technical features as would be helpful to the artisan as well as the commercial young man. Considerable time and. travel has been given to this search for a man, but so far without a favorable response, though several prominent men have pronounced it the educational opportunity of a life-time in its scope, helpfulness to, and influence for good over a large class of young men who are not attracted by the already numerous advantages offered by our Associations. 125 Association men and secretaries have been conversed with upon this work, and several Associations have already successfully introduced technical classes in clay modeling, wood-carving, wax pattern-modeling for metals, and more extensive and thorough courses in mechanical drawing.

Several other Associations are preparing to introduce these or other lines of technical education, and to add technical and reference books

to their libraries and otherwise improve them.

In all 67 Associations were visited, nearly 500 individual conferences were held with Association men and secretaries concerning the work, eight conferences or conventions, 39 board and committee meetings, both local and state, and seven parlor conferences were attended and participated in, and 29 addresses were made on Association work.

Three Bible classes and 32 men's meetings were conducted, 18 addresses were made at other men's meetings, and 12 gospel talks given in churches or halls. Personal work for Christ with unconverted young men has been urged upon the Association workers and participated in with many joyful

results.

#### ANNUAL REPORT OF S. A. TAGGART,

#### Secretary.

My work during the year may be classified under two heads:

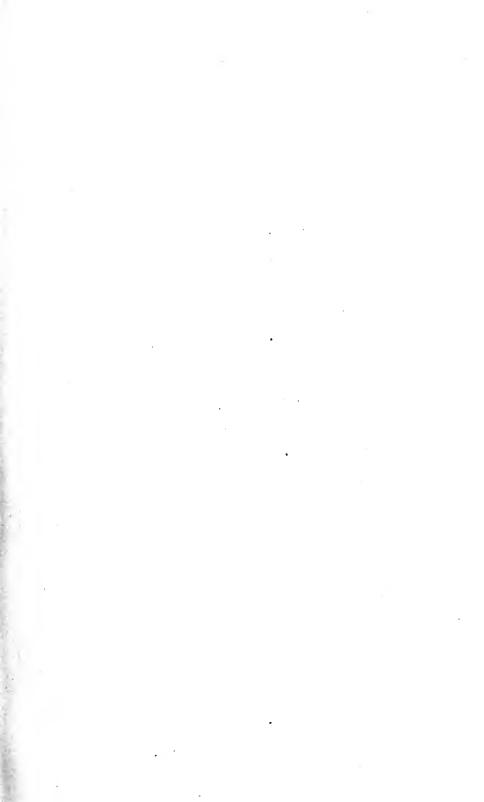

1. General. Personal assistance has been rendered at the State Conventions held at Waco, Texas; Mitchell, S. D.; Franklin, Pa.; and Denver, Col.; and at district conventions at Hudson, N. Y.; Port Huron, Mich.; and Greensburg, Pa. Much time has been given to miscellaneous work, involving visits to New York, Philadelphia, Buffalo, Chicago, Scranton, Pa.; Columbus, Ohio; York and Reading, Pa.; Brooklyn and Newburgh, N. Y. There has also been much general correspondence.

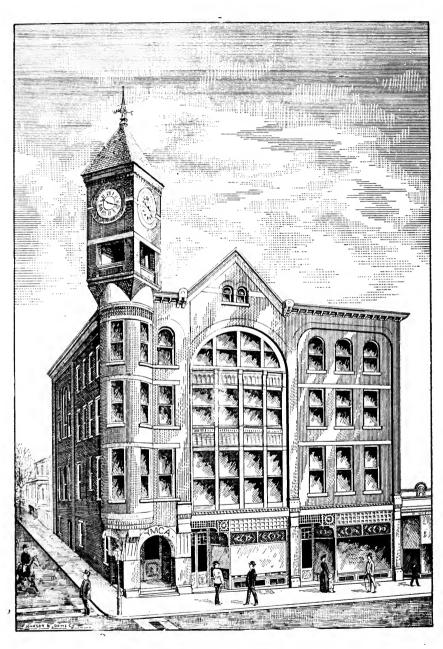

2. Particular. Most of my time and effort has been given to the special Visits were made and the movement started at the work of extension. following points: Denver. Col.: Detroit. East Saginaw and Port Huron. Mich.; London, Ont.; Toledo, Youngstown, Springfield and Canton, Ohio; McKeesport, Washington, Johnstown, and Pittsburgh (R.R. Dept.), Pa.: Trenton and New Brunswick, N. J.; Waco and Dallas, Texas. Dayton, Ohio, and Wheeling, W. Va., were visited as they were beginning the second year of their work. In addition, this work was presented in many places where, for various reasons, action was delayed. In nearly every instance the work was heartily approved and assurances given that it would be taken up as soon as possible. This list includes Hamilton, Ont.: St. Louis, Central, and both North and South Side German, Carthage, St. Joseph, Independence, Sedalia, Lexington, Hannibal, and Brookfield, Mo.; Sioux Falls, S. D.; Xenia, Ohio; New Castle, Beaver Falls, and Franklin, Pa.; Paterson and Jersey City, N. J.; Galveston and San Antonio, Texas; Newburgh, N. Y.; Colorado Springs, Col.; Bay City, Saginaw (West Side), and Ypsilanti, Mich. In some of these they have already begun the work. Forty-six places in all have been visited, and a considerable correspondence has been maintained. Great care has been taken to avoid premature action, and to secure an intelligent and hearty cooperation on the part of officers and directors.

A second year of experience indicates progress, the work having been introduced in a larger number of places. In a few of the Associations a most gratifying gain has been made in amount of contributions. report that they raise this money easier than any other. On the other hand, some Associations report a shrinkage and some even a discontinuance of the effort. In some cases letters of inquiry are not even answered. Failure after the work has once been undertaken indicates a weakness in the working force, and consequent inability to secure the right kind of management, or a lack of attention in following up the plan with proper personal effort, or both. The reasons for delay in beginning the work are various, but most often the pressing needs of the home work, or special financial stress in the community. In some instances there is a lack of intelligence and therefore of sympathy regarding the work, or simply a disinclination to put forth the required effort. It is safe to say that not a dollar more is ever raised for the home field by neglecting to co-operate in extension work.

extension work.

Experience teaches still, as it did at first, that the members in nearly every place visited welcome the plan and are ready to contribute in numbers sufficient to encourage a beginning, and that earnest and persistent

ASSOCIATION BUILDING, STAUNTON, VA.,

effort will in time secure a numerous constituency that will be largely permanent and of growing liberality. And it is believed that the discouraging features present no problems but such as are capable of being solved if all concerned are but faithful to the call of the Master.

## ANNUAL REPORT OF CECIL L. GATES,

Secretary of the Railroad Department.

The year has included a variety of service in nearly all sections of the west and northwest, and has embraced pioneer work and co-operation with workers already on the field, in the numerous details of railroad, mining, local, building, and state work.

The year opened with a number of departments in successful operation upon the Union Pacific, and prospects of extension. In March and April considerable time was given to preliminary work in Wyoming, Colorado, Oregon, and Washington, and departments were opened at Tekoa, Wash., and La Grande, Ore. Further extension was rendered impossible by a complete change of management. The sweeping reduction of expenses that followed included the work of the Association and the closing of several departments became necessary.

In the establishment of the initial railroad department of the Denver & Rio Grande Railroad, at Denver, a new field has been opened and a successful work inaugurated. The intelligent interest and hearty co-operation of the officials of this road has been very encouraging, and will have its effect upon the work in that section. Considerable time has been given to preliminary work upon the Southern Pacific Railroad, and reports and recommendations made which have been received with favor and now await action. Sacramento, Oakland, and San Francisco, California, and New York City have been visited in connection with this work. The railroad work accomplished in the west has been a stimulus to Association effort in all lines, and an object lesson of value in its connection with employés and officials.

During the last four months C. H. Moorman has been employed as an assistant, making closer supervision of certain sections possible, and greatly promoting the efficiency of our work. The necessities of the general work of the west have demanded more time and attention than in any previous year. Familiarity with the field has brought much of it under my care. In mid-summer several weeks were given to the development of the work among young men in the Mormon strongholds of Salt Lake City, Utah, and Montpelier, Idaho. In Salt Lake City money was secured with which to enlarge the quarters of the Association, to fit them with approved attractions and facilities, and to meet expenses to the close of the year In Montpelier a work was established which attracted both Mormon and Gentile young men, and made the development of a successful evangelical church work possible. It has been clearly demonstrated that the Association offers one of the best agencies for reaching Mormon men, and bringing them within the influence of an enlightened and attractive religious life.

In response to the request of the State Committee of Colorado, it has been my privilege to assist in the reorganization and development of much of the work now established in that state. In Colorado Springs,

the preparation of the field for the coming of an experienced general secretary was undertaken, and in Pueblo assistance was rendered in the building canvass, which has been prosecuted under most discouraging circumstances. A feature of special interest in the Colorado work may be mentioned, viz.: the establishment of a sound financial basis for the Associations in the great mining camps of Leadville and Aspen, and the reorganization of the entire system of work in each place. Generous appropriations have been secured from the larger mining companies, upon a basis similar to that employed in the railroad department, and both cities are now in possession of new and elegantly fitted rooms. The improved conditions are already manifesting their influence.

Considerable time has been devoted to Denver, and special visits have been made to Butte. Montana; Ogden, Utah; and Spokane, Wash.; regard-

ing the establishment or reorganization of work at those points.

In all the work, railroad and local, there is a clearly defined purpose to adhere to our definite work, with a general and steady progress toward the complete establishment of a well-rounded, business-like and attractive service, in which the secular and religious departments shall bear the correct relation to each other, and all the needs of young men be met.

There has been a necessity for a great amount of office work. Press and Association writing and correspondence have been greater than in any

previous year.

Much attention has been given to procuring general secretaries for railroad and local fields in the west, east, and south. Fourteen Associations have been supplied with competent men who have done good service.

I have made 105 visits to 35 towns and cities in California, Oregon, Washington, Utah, Idaho, Montana, Wyoming, Colorado, Kansas, Missouri, Nebraska, Illinois, New York, and Connecticut; have had 110 interviews, mostly by appointment, with railroad and mining officials, and secretaries and officers of Associations, and have met for conference and counsel with 18 committees and boards of directors. I have made 37 public addresses and have attended the conventions of the Pacific Northwest, California, and Colorado. I have also been present at six railroad and secretarial conferences and attended the International Convention. Forty-six days have been given to canvassing for funds for building, furnishing, and current expenses.

While the work has been attended with many difficulties and discouragements, it has brought many personal blessings, and has been used of God

in the saving of some young men.

## ANNUAL REPORT OF CLARENCE J. HICKS,

Secretary of the Railroad Department.

While endeavoring to follow out the policy of the Committee by aiding Associations already organized rather than by pushing for work at unoccupied points, I have been obliged to spend much time in meeting calls for aid in organizing new work, especially along the lines of the Chesapeake & Ohio and of the Norfolk & Western Railways. This has made it impossible to cover the entire field by visitation, as was intended, but I have endeavored to keep in close touch with the railroad secretaries through correspondence. Much office work has thus been called for, and

in December desk room was secured by the International Committee in the Association building at Chicago, and a large share of this work has been done at that point. This office has also proven a great convenience to other secretaries of the Committee when in the vicinity of Chicago.

The growth on the line of the Chesapeake & Ohio Railway has been most encouraging. At Hinton, W. Va., a \$5,400 building has been opened. The railway company contributed \$3,250 and the site, and the remainder was contributed by the railroad employes and citizens of Hinton. John Coldwell spent several months, under the direction of the Committee, in securing the Hinton subscriptions and supervising the erection of the building. At Handley, W. Va. (another division point on the same line), a \$3,000 building is to be erected by the company, and the same corporation has offered \$5,000 toward a \$10,000 building at Clifton Forge, Va.

At Cincinnati a new department has been opened at the union depot, and the influence of the strong work being done by the Cincinnati railroad

department is being felt in many directions.

Appropriations have been granted by the Norfolk & Western R.R. for new Associations at Crewe, Radford, Bluefield, and Shenandoah, Va., and at each of these points organizations have been effected, largely through the agency of the Virginia State Committee. At Kaukauna, Wis., a division point on the Milwaukee, Lake Shore & Western Railway, a fine club house, erected by one of the directors of the road, has been turned over to the Association under supervision of the State Committee, and a home has thus been provided for a new railroad department at that point. A new department has been opened at Logansport, Ind., on the Pennsylvania R.R. At Washington, Ind., a pledged membership of two hundred and fifty railroad men has been secured, and a request is now before the directors of the Ohio & Mississippi Railway for an appropriation for that place. E. L. Hamilton, of Cincinnati, has visited Washington several times and rendered valuable service in work preliminary to organization.

The departments at Harvard, Ill., and Forty-eighth Street, Chicago, have been closed during the year, owing to the removal of the majority of the railroad men from those localities. At several points the opening of railroad departments has been discouraged, either because the railroad employés were so located as to render it impossible to reach any large number of them, or because there was no assurance of sufficient support

from the railroad companies.

I have attended the State Conventions of Massachusetts, Vermont, and New York, and assisted at the Lexington, Ky., Chautauqua Assembly on Association day.

In February an international conference of the railroad department was held in Chicago. Most of my time during January and February was spent in preparation for it. I was aided by C. H. Moorman, who visited a number of the western Associations, and in many ways helped to make the conference a success. A uniform system of report blanks, both financial and statistical, is now published by the Committee, and an effort is being made to secure the co-operation of each Association in sending such reports, at least quarterly, to the State and International Committees and to the officials of contributing roads. A form of constitution has also been published for use by railroad Associations in cities having no general Association.

I count it a great privilege to have had some share in this work during another year. The growing favor with which the railroad department is regarded both by railroad officials and employés, and the hearty co-operation given by several State Committees, afford special encouragement and grounds for expecting substantial growth the coming year.

## REPORT OF W. A. HUNTON,

#### Secretary.

- 1. During the past year I attended seven conferences and conventions, viz.: A conference of nine Colored Associations at Richmond, Va.; the Central Intercollegiate Deputation Conference at Harrisburg, Penn.; the International Secretaries' Conference at St. Joseph, Mo.; the International Convention at Kansas City; a special conference with representatives of the South Carolina State Committee, and a second conference of thirteen Associations at Lynchburg, Va. I also attended the Springfield Summer School.
- 2. I made 54 visits to 11 local and 15 College Associations in nine different states, viz.: Alabama, Georgia, Kentucky, Missouri, North Carolina, Pennsylvania, South Carolina, Tennessee, and Virginia. I assisted in organizing three new Associations. In connection with these visits I labored three and a half weeks in St. Louis, eight weeks in Norfolk, and eight and a half weeks in Washington, D. C. Visits to other Associations occupied from one to six days each. I made ten visits to seven places on invitation to organize Associations, but where, for various reasons, up to the present time, only temporary organizations have been formed.

3. When properly organized and conducted, the Young Men's Christian Association is peculiarly adapted to meet the present needs of colored young men, the majority of whom have no other public place to spend

their leisure free from vicious influences.

4. Much of my time has been devoted to the securing of funds for the support of local Associations. Colored people generally are poor, and they are already giving liberally for the support and extension of church and educational work. No more important work is now open to Christian philanthropists than the establishment of well-equipped Associations among the two millions of colored young men of the United States.

## REPORT OF F. S. BROCKMAN,

#### Secretary.

Since entering the service of the Committee, August 15, 1891, my time

has been devoted mostly to college work.

Visitation.—Sixty-six institutions, in ten different states, have been visited, six of these the second time, a total of seventy-two visits. In the majority of these places there were organizations, but seldom any adequate conception of a true College Association. Often there were no committees, no Bible classes, no form of religious work except a poorly attended prayer meeting. My work consequently has been one largely of elementary instruction in Association principles and methods. Bible training classes have been organized, missionary meetings established, and the committee system introduced. It seemed better to increase the

effectiveness of existing Associations than to organize new ones. In several states, however, the number was too small to successfully establish intercollegiate relations, or arouse interest in college work in the conventions. Several organizations were formed in each of these states, in all fifteen Associations. In selecting the places the importance and influence of the institution and its nearness to other Associations were considered. Part of my field, including the states of West Virginia, Florida, Mississippi, and Louisiana, from which have come urgent calls, I was unable to visit.

Conventions, Conferences, and Summer Schools.—At the Lake Geneva Summer School I assisted in the conduct of the college conferences and missionary meetings and in arranging the platform programme. I attended the State Conventions of Tennessee, Missouri, North Carolina. Texas, Georgia, and Kentucky, where college conferences were conducted, addresses delivered, and assistance rendered in determining the policy of the college work for the year.

With the consent of the Committee I attended the convention of the Inter-Seminary Missionary Alliance, of which I was chairman. In company with Mr. Mott I was present at the Virginia college conference and both the southern and western deputation conferences.

The Intercollegiate Deputation.—If experience has proved the importance of this work even in states where there is a college secretary, its necessity may be imagined where there is either no State Secretary or one who can give only a fraction of his time to college visitation. Notwithstanding the financial crisis, the hearty co-operation of the State Committees secured the attendance at the southern deputation conference of 24 delegates from eleven states; and sufficient funds are provided in nearly all these states to use to the fullest extent this most important factor.

Building Canvass.—Five days during January were spent in inaugurating a building canvass at the University of Texas. The subscriptions among the students and faculty have reached \$7,000, and there is every prospect that the proposed \$25,000 will be readily secured from the citizens of Austin and the board of regents. The prominence of this institution—the most richly endowed in the south—gives this movement an added significance.

The Southern Students' Summer School.—Much time has been taken in perfecting plans for the proposed summer school at Knoxville, Tenn. The securing of the different teachers and speakers has entailed considerable correspondence and travel. An exceptionally strong platform has been arranged and all indications point to a large attendance. This summer gathering is bound to mark a most significant era in the college work of the south.

## ANNUAL REPORT OF LUTHER GULICK, M. D.

At the International Secretaries' Conference in 1888, there was discussion as to the advisability of organizing an International Young Men's Christian Association Athletic League. The conference considered the matter favorably, and appointed a committee to take such steps as might be deemed wise. After consideration this committee referred the matter to the International Committee, but no action is likely to be taken by that body until similar work has been done more fully in smaller fields.

Among the disadvantages of athletics as usually carried on, and which it is desired to counteract by new methods, are the following: (a) The usual scheme tends entirely to the production of specialists, which is counter to the fundamental idea of Association work, namely, to develop the man and not the specialist. (b) Being planned for the exceptional rather than for the average man, this scheme is of little use to nine out of every ten men, who are not fitted to excel in any given line. Thus it is irrelevant to the aim of the Associations, which is to provide methods of development adapted to all their members. (c) Such extensive grounds are needed that they must usually be remote from the Association building, and consequently can only be used by the members who have leisure in the day time, and not by the large majority who work indoors until six o'clock, and most need such exercise. (d) Expensive apparatus is required. (e) Comparatively few men take exercise at the same time. Thousands can watch a baseball game, but only eighteen can play. (f) The training required for competitions under this scheme is not in line with that which is most beneficial to the individual. This is a radical defect.

Following instructions from the Committee, I have endeavored to devise a scheme of athletic competition for the Associations which shall overcome these disadvantages and be germane to the fundamental idea of Association This seems to have been accomplished with fair success. plan is entitled "The Pentathlon." Its fundamental idea is to produce all-round men. It meets the difficulties just mentioned as follows: (a) The man who is merely a specialist or who is merely willing to work on special lines can secure neither prominence nor advantage in connection with it. (b) It aims to be of use chiefly to the nine men out of ten, rather than to the one man who has capacity in some unusual direction. (c) It can be used in grounds of very moderate size, say two or three city lots, such as can be secured within easy distance of many Association buildings. The apparatus required is inexpensive. (e) A considerable number of men can train at one time. (f) The line of work undertaken in training for competition is precisely that which is best for health.

I delayed reporting this matter until the testing process had been begun. The New York Associations took up the new idea with enthusiasm and thoroughness. At the State Convention of 1891 a committee was appointed on this matter, which has since held a successful state field day. The matter was brought before the Massachusetts State Convention of the same year, and as a result an efficient sub-committee of the State Committee on physical work has been appointed. At the last Connecticut State Convention similar action was taken. The action taken in these states is mentioned because it is considered to be the most significant work done in the physical department for the last two years, and which promises to solve many grave problems. The point deserves emphasis that wherever this form of organization is taken up in the various states, it is extremely important that it remain in the hands of the State Committee; any movement, particularly a physical department movement, which is handled simply by those who are interested in one department, will almost invariably in the course of time drift away from the fundamental object of the Association.

The future of athletic work I believe to be even more full of promise than that of gymnastic work, because, it is in itself more healthful, it is out of doors, it is more natural, it requires less expensive apparatus, and is more interesting to the average man. It is most active during the months when the other departments of the Association are doing the least, and thus fits in to solve the problem of holding the membership throughout the whole year.

I have during the year carried forward the tabulation of anthropometric measurements, and have reached some results which are being sent out to

the co-operating Associations.

At five conferences and conventions I have spoken on the physical work. I have paid particular attention to presenting the physical directorship as a life work, and to the stirring up of intelligent interest in the Pentathlon.

Correspondence has been conducted on the following subjects:

- 1. The investigation of men for physical directors. I have corresponded with 67 men, of whom 8 cannot be recommended for Association work, 23 were found to be available and worthy, 16 are now filling positions, several wish to make further preparation or are at present engaged in other cupation, a number are undecided, while 7 are now available.
- 2. With 42 Associations regarding physical directors, 9 of which now have men as a direct result of this correspondence.
  - 3. Fitting up gymnasiums, exhibitions, apparatus and bathing facilities.
  - 4. Athletic grounds, conduct of field days, Pentathlon.
  - 5. The Association gymnasium record blanks.
  - 6. Books and reading.

# THE HISTORICAL LIBRARY OF THE YOUNG MEN'S CHRISTIAN ASSOCIATIONS.

Annual Report of J. T. Bowne, Custodian.

Sixty-seven bound volumes were added during the year, making March 1, 1892, 895 bound and 1,035 unbound; a total of 1,930.

A card catalogue of all Association periodicals on file has been completed, and the classified index enlarged to include all topics discussed in the published reports of the State Conventions of New England and the Middle States. It is hoped to complete the index of state reports during the ensuing year and perhaps make a beginning upon the international reports.

Numerous testimonies to the value of the "decimal classification" for Association publications, referred to in the last report, have been received and several secretaries are, through it and a card index, making available the contents of their files of Association reports and periodicals. The value of such an index as a labor saver to secretaries in referring committeemen to information sought, is becoming appreciated. The question has been raised several times, whether when the classified index to the general periodicals and convention reports has been completed, it would not be practicable to publish the same for general use by Association workers. This would be a somewhat expensive undertaking, but if any are especially interested in the matter we should be glad to know of it. This index already covers about 9,000 cards.

PUBLICATION OF YOUNG MEN'S CHRISTIAN ASSOCIATION PERIODICALS.

We still find it very difficult to secure bulletins regularly. The Associations at home and abroad very generally respond to our requests, and the

library is continued upon the mailing list until a change occurs in the management, when it is often dropped and not replaced until an annual request for a continuance is sent out. In many instances this leaves gaps in our files which cannot be filled. We hope the day is coming when all the Associations will realize the importance of regularly sending us their publications for historical reference. We received during the year 224 Association periodicals, 165 being from the United States, 9 from Canada, and 50 from abroad. The total number of annual files now in the library is 2,594.

Reports.—The most important contribution of the year came from Miss Amy Bridgman, of Umzumbe, Natal. After very persistent efforts this lady collected and forwarded annual reports and other information from thirty-two South African Associations, greatly enlarging this department of our library.

Photographs.—In addition to a number of photographs of American buildings, we have received over 300 cabinet pictures of secretaries and other employed officers. Also a number of interesting groups.

#### PUBLICATIONS OF OTHER SOCIETIES OF YOUNG MEN.

From Miss Sarah Robinson, of Portsmouth, England, "the soldier's friend," we have received three volumes descriptive of the work in the "Soldier's Homes," and from Alexander Gordon, volume 5 of "Toilers of the Deep," and "What Cheer, O?" describing the work of the "Mission to Deep Sea Fishermen."

We reported last year the purchase of a copy of Woodman's "Account" of the Young Men's Societies in the Church of England. It was the second edition, 1698. During the past year we have received a copy of the fourth edition, 1712, in which Dr. Woodward adds many interesting particulars as to the spread of this movement in Great Britain and on the continent of Europe. This book appears to have been quite popular, a seventh edition having been published as late as 1800.

An interesting little pamphlet has also been added, containing two letters by the Revs. John Williston and John Brown, addressed to a religious society of young men—composed in part, at least, of students—in Edinburgh, in 1740. The letters lay much stress upon the importance of "fellowship meetings."

We have also secured twenty-nine sermons delivered before the "Societies for the Reformation of Manners" between 1696 and 1790, to several of which are appended the annual reports of these societies. This movement grew out of the Church of England Young Men's Societies, much as our "Societies for the Suppression of Vice" grew out of the Young Men's Christian Associations. From a report of 1738 we find that the total number of prosecutions in 44 years' work of the societies was 101,683, and that books and pamphlets concerning the work to the number of 444,850 were published.

#### MISCELLANEOUS PUBLICATIONS.

Wm. J. Rhees, of the Smithsonian Institution, presented us with a copy of his "Manual of Public Libraries, Institutions, and Societies in the United States and British Provinces," 1859; and the library board of the Cleveland Public Library with a copy of their "Catalogue of English Books." The New York State Library gave a set of its valuable

ASSOCIATION BUILDING-GARFIELD BOULEVARD RAILROAD DEPART-MENT-CHICAGO, ILL.,

GARFIELD BOULEVARD AND TRACY AVENUE.

DEDICATED, OCTOBER 6, 1889.

Dimensions, 28x75 feet. Cost, \$6,300.

"Bulletins," and the State University of New York a set of its "University Extension Circulars."

PUBLICATIONS OF YOUNG WOMEN'S SOCIETIES.

Mrs. Wm. M. Oatts, of Glasgow, furnished reports of the Glasgow Y. W. C. A., 1882–1890; and Miss Grace H. Dodge, of New York City, 14 pamphlets describing the "Working Girls' Societies," and a set of Far and Near, their official organ.

The American Young Women's Christian Associations have generally

sent us their publications, and our thanks are returned.

Several lots of duplicate Association reports have been received, and special thanks are returned to A. P. Stockwell, Aurora, Ill.; Rev. W. H. Sands, Cambridge City, Ind.; and W. A. Waggoner, Columbus, Ohio. Duplicates are always valuable to us in making up sets for Associations and public libraries.

To the large number of Associations that have regularly sent us their current publications we return hearty thanks, and hope that in some way

we may make the library serviceable to them.

We again call the attention of pioneers in Association work, or the families of such, that may have Association books, pamphlets, manuscripts, or pictures that they are willing to dispose of, to the importance of sending them to an international depository like this library. Information as to the whereabouts of such papers will always be gratefully received. Communications and parcels should be addressed, "The Historical Library of Young Men's Christian Associations, Springfield, Mass."

#### ANNUAL REPORT OF J. T. SWIFT,

Secretary for Japan.

The year 1891 brought to Japan an unusual number of disturbing events that were of truly national importance. The imperial parliament in its first session suffered interruption through the loss of its new buildings by fire. Soon afterward the lower house, composed of representatives of the people, entered its first trial of strength with the government, developing almost unanimous opposition in its first session, and bringing about the dissolution of its second session by the Emperor, and a call for a new election. Methods pursued by practical politicians led the government to put in force, early in the year, the extraordinary peace preservation regulations, while later on the greatly lamented attack made by an insane policeman on the visiting czarewitch called forth the imperial ordinance of press censorship. The failure of the harvests of the previous year and the prevalence of fatal epidemics brought much suffering during the first months, while after unusually severe storms came the terrible earthquake of October 28, wrecking two provinces, causing the death of 10,000 people, and rendering homeless 800,000 others. In short, the events of the year, from beginning to end, were such as to distract in an unusual degree the minds of young men from the consideration of religious topics. On the other hand, however, and affected doubtless in part by these outward conditions and in part by a natural reaction from the opposition of the previous year, there has seemed to be a deepening sobriety of spirit on the part of Christians, and a more appreciative attitude toward Christianity on the part of many classes of unbelievers.

In this connection should also be mentioned a very remarkable instruction given in September by the imperial home minister, publicly rebuking the Buddhist priests for their corrupt lives. Such in general were the conditions accompanying and in some degree determining the work of the Association during the year covered by this report.

It has been my privilege to aid in the following lines of work:

1.—The Tokyo Association. 1. Organization.—The first six months of the year were almost entirely occupied with the organization of the Tokyo Association, the details of which were published in the Young Men's Era of June 25. It will be sufficient to note here that the first board of directors was composed of eleven laymen, representing nearly all of the evangelical denominations. For their president they elected the present corresponding member for Japan of the International Committee, who has twice been called to the office of the vice-ministry in the imperial judiciary department; for vice-president, a prominent member of a Presbyterian church, who was also the chairman of the committee of the whole in the lower house of Parliament. The other directors are all well known in church and public life. The board of trustees was formed of representative city pastors, together with two laymen, the one a banker, the other a government official. It is almost unnecessary to add that all the members of both boards are Japanese.

2. Property.—In March the purchase of land for the main building was completed, the entire cost being 9,307 Mexican dollars (about \$7,500 gold). Though much labor had been spent on the constitution during the previous year, still further careful study was necessary in order to make it in all respects practically safe, since in Japan there is no law providing

for incorporation or for the holding of property in trust.

3. Buildings.—During the first three months of the year I spent considerable time in connection with the preparation of plans for the college building; but certain complications then arose which made it necessary for the time being to stop that undertaking. Immediately after the transfer (to the trustees) of the title of the main building lot, the building committee of the board of directors in June chose as their architect Mr. Josiah Conder, F. R. I. B. A. Mr. Conder submitted drawings that were practically adopted when there occurred the greatest earthquake that Japan has experienced since the introduction of foreign buildings. Mr. Conder, having been detailed by the government to investigate the effects of the earthquake upon building materials, etc., decided that it was wise to make radical alterations in the plans submitted. We regret the delay, but are thankful that it comes only to add permanent value to our structures. The buildings will be of brick and will probably be begun in April.

4. Work.—While Bible classes and various meetings of other kinds were held during the first six months of the year, and the Association had moved into temporary rooms near the site of the new building, yet we were all too busy to begin anything like regular Association work. In October, however, Mr. Niwa, assisted by several of his friends, opened an evening school which together with the reading room and library attracted daily to the rooms 30 or 40 young men. The week of prayer for young men was first regularly observed last November. Some of the meetings were held at the Association rooms, and some in churches and public

halls. About half of them were evangelistic in character. They extended through the entire week, were well attended and the immediate result of them was to give to the Association its first really active members. The membership has since steadily increased. Bible-classes, members' meetings, lectures and outings are regularly arranged for and seem popular. There has been opportunity for vastly more work than has been done, but as everything was new to directors, secretary, and members alike, each undertaking seemed to require a disproportionate expenditure of time.

II.—RAILROAD MEN'S ASSOCIATION.—Some portion of my time each week has been given to the work for railroad men. Their Association reports some 49 members. They have had rooms near the principal station in Tokyo and have held social meetings of various kinds and with the aid of one of our helpers have kept up evening school and Bible class work.

III.—The College Associations.—The distractions mentioned in our opening paragraph particularly affected the student classes, so that while the College Associations reported last year still exist, and have continued to hold their meetings regularly, there has been, with one or two exceptions, almost no apparent growth in spiritual life. Two or three Associations. with the help of missionaries or Japanese pastors, have had regular Bible One reports three large evangelistic meetings, each attended by 200 students, and also two conversions during the year. The best report of all comes from a small Association, which during the year had received nine unbelievers to its associate membership Of the nine five have already become Christians, while two more are candidates for baptism. I have kept in constant correspondence with these Associations, secured speakers for their meetings, furnished them with tracts for distribution, and held many conferences with their leading workers. Mr. Murakami has also assisted in corresponding with them and made one short tour of We greatly regretted that lack of funds made it impossible for us to support the summer school. It was held, however, quite independently, and though attended by fewer students than formerly was characterized by greater sprituality.

IV.—The Kobe, Osaka, and Nagasaki Associations.—The chief city Association work outside of Tokyo has been done at Kobe under the direction of Mr. S. Inouye. This Association reports 56 members, maintains an evening school, and occasional lectures and social meetings. From the Osaka Association we have no report. The Nagasaki Association has held regular meetings and also raised \$600 for the relief of the earthquake sufferers. In October a conference of the Christian Associations in the vicinity of Kobe was held in that city. Mr. Niwa attended it and did all that he could to influence them to adopt methods more closely resembling those of the Young Men's Christian Association. For this class of societies I have been able to do very little except in the way of correspondence. They are all paying close attention to the work that is beginning in Tokyo, and we can best help them by making that strong and efficient.

V.—The Foreign Educational Committee.—The seven graduates of American colleges who are teaching in non-Christian schools in connection with the work of this committee have been doing most excellent and successful work for the student class. It has been my privilege to be of serv-

ice to them in many ways; I have kept in constant correspondence with each of them, and also with young men in America who were desirous of entering this work, and also with schools desiring their services. From November 23 to December 20 I spent in a tour with the chairman of the Tokyo advisory committee, Rev. J. L. Amerman, D.D., during which we together visited all but one of these teachers and conferred with them concerning their work. The success attending the labors of these devoted young men in every instance exceeded our expectations. They were everywhere commended by the missionaries and their work was referred to as a valuable auxiliary to the denominational missions.

VI.—Mr. R. S. Miller, Jr., the assistant secretary for Japan, reached Tokyo March 16, 1891. According to previous agreement his first year was devoted to the study of Japanese. His first examination, taken in December, showed that he had made a good beginning in what is commonly considered at least a five years' task. Mr. Miller has also spent sometime each week in helping the evening school of the Tokyo Association.

VII.—In General.—In addition to the matters enumerated above there have been daily conferences with Mr. Niwa at the Association rooms, and with other officers and workers in different parts of the city. I have been able to do some Bible work almost every week and have conversed with large numbers of young men on matters relating to Christian life. Some time has been given to the study of the language, though little has been accomplished on account of constant interruptions. My correspondence has continued to be very large and together with other office work has occupied fully one-third of my time.

I wish to acknowledge the uniform kindness and sympathy with which I have been met by all the gentlemen of this land with whom I am in this work officially or otherwise connected. Also my great obligations to Rev. George William Knox, D.D., and his associates, who, acting as an advisory committee, have given to our work the valuable help of their maturer experience. Our thanks are also due to the Broadway Tabernacle of New York City for donations of valuable periodicals, which form an important addition to our library.

## ANNUAL REPORT OF R. S. MILLER. JR.

Assistant Secretary for Japan.

September 1-25, 1890, was passed in New York City and Springfield, Mass., studying the history and methods of Association work, visiting branches, etc.; September 26 to October 7 was spent with Secretary Mott in the maritime provinces, visiting the College Associations and holding a college conference; October 8 to November 20 in visiting 20 city Associations, 6 colleges, and one district convention in New York State in the interests of the foreign work. Two weeks in December were spent in like visitation in New Jersey, and January, 1892, with the Associations of Ohio. February was taken for travel and rest, with appointments at Chicago and Minneapolis. I sailed from San Francisco February 26 and reached Tokyo March 16. Since my arrival in Japan my time has been devoted almost exclusively to the study of the language, with correspondence and occasional conference and visitation. Since September, 1891, I have given from three to eight hours a week to teaching English in the evening classes of the Tokyo Association.

## ANNUAL REPORT OF DAVID McCONAUGHY,

Secretary for India.

The Madras Association has steadily advanced, escaping the reaction so common here, and winning the increased confidence of the community. Of 3,764 rupees raised during 1891 there was received from contributors—chiefly European business men—1,979, and from our members 1,361, besides 104 in athletic department fees, and 57 for piano fund. The membership, despite large losses from removal of students, has increased to 239; but there has been greater gain in quality and amount of fees than in numbers. Of 215 members reported at the close of 1891, there were 22 Europeans, 60 Eurasians and 133 Indians (of whom 3 were Mohammedan, 47 Christian, and 83 Hindu).

All lines of the work have been vigorously carried on. The library has grown from 300 volumes to 579, and a librarian has been employed. A class in book keeping has been established, and of five who appeared for the government higher examination, four passed. Commercial corre-

spondence will be included this year.

The athletic department has been granted the exclusive use of a choice piece of government land. A piano and small orchestra are added attractions. The spiritual power of the Association has been manifestly increasing, and the attendance at all the regular meetings has been good. The daily gatherings during the week of prayer averaged over one hundred young men. The recent revival under the leadership of Dr. Pentecost was the most powerful ever known in the city. Many of our associate members were among the converts, and the Association has been greatly strengthened by the accession of new workers. The week-day attendance at the rooms has averaged 155. The need of a building is urgent, but there is no prospect of obtaining the necessary funds here, and we are looking to friends at home for help.

Although closely confined by the growing local work I have devoted all the time I could command to the work throughout the country as secretary of the Indian National Committee. These duties have included editing the convention proceedings, college constitution, quarterly committee minutes, etc.; conducting a correspondence of over five hundred personal letters, besides printed circulars; making six tours of visitation, covering thirty-three days, in South India and Ceylon; holding a three days' convention of the Associations of the Jaffna Union, attended by 300 native young men; and arranging for the second National Convention of India, to be held at

Bombay, April 14-17.

Since its appointment by the first National Convention (Madras, 1891) the committee has labored not so much to multiply Associations as to conserve and unify the work already begun. Of the 35 Associations reported last year one has died, three others have failed to report, while eight or nine have been added, making about 40 now in active operation. The crying need is the same as a year ago—more men, and money for their support. The appeal for experienced secretaries for Calcutta, Jaffna, and Lahore has not yet met with any response.

# ANNUAL REPORTS OF CORRESPONDING MEMBERS,

To April 1, 1892.

#### AUSTRALASIA.

Since our report two years ago there have been both reverses and successes, with the present balance happily in favor of the latter.

The Sydney Association has maintained its hold on young men by its varied work. A successful fine art exhibition provided funds for a complete renovation of the building. At Goulburn progress has been made in the appointment of a general secretary, with excellent results. The Newcastle general secretaryship is temporarily vacant.

The Adelaide Association has been and continues to be the scene of remarkable blessing, special efforts being made to reach non-religious young men. Several suburban branches have been established. Here

also a special fund was raised for the renovation of the building.

The past two years have witnessed the laying of the memorial stone of the new building in Melbourne, by his excellency the governor, and the opening festival. Both events were attended by friends from the neighboring colonies, and the latter by Secretary W. Hind Smith, of the English National Council. The fine gymnasium has been placed in the care of A. P. Stockwell, of the Springfield Training School, who has abundantly justified his selection for the post. Geelong is renewing its youth. An Association has been formed in North Melbourne, but is at present confined to vigorous missionary work amongst young men of the street corner class, with encouraging results.

The Brisbane Association is bravely fighting against unusual difficulties, but the approaching conference there will doubtless greatly strengthen it.

Western Australia has yet to be opened up, but the ground is being prepared by correspondence with the other colonies. Hobart, Tasmania, is negotiating for a general secretary from among its own ranks. Launceston has recently opened a well-appointed building, but needs a general secretary. Auckland, New Zealand, maintains its well earned position, and is putting well directed energy into its work. Christ Church has lost its old secretary, but has secured a new one who is laboring with great usefulness. There are other smaller Associations in the colony.

The opening festival of the Melbourne Association included a conference of general secretaries at which W. Hind Smith was present, and the Brisbane Association will convene a General Conference there in May next, to which papers will be contributed by the English and Indian National Councils. W. Hind Smith's Australian tour was most helpful to the Associations and he was able to visit all with two or three exceptions.

A traveling secretary is our great need.

W. A. Southwell, Cor. Mem.

#### FRANCE.

The reports from the various departments of France indicate constant

progress in the work of the Associations. Thirteen new Associations have

been organized during the year.

The Associations at La Rochelle, Nancy, Toulouse, St. Etienne, and Bordeaux, all important towns, have entered into new and better quarters. This forward movement has been due to the influence of the Paris Association, and to the visitation of various localities by the General Secretary of the National Committee. James Hughes. The Paris Association now has 504 members as against 437 last year, and the members of the various committees have increased in numbers and efficiency. During the year 14 young men have confessed their faith in the Lord Jesus Christ. Especial effort has been made in Paris and in Lyons in favor of the week of prayer, and sermons in behalf of young men were preached in most of the Protestant pulpits in Paris. Paul Theis, who studied a year at the Springfield Training School, was appointed by the committee at its meeting last January to fill the vacancy occasioned by the resignation of Mr. Vander Beken, one of the general secretaries of the Paris Association. There has been some little delay in completing the details of the building scheme, and ground has not yet been broken in the lot already purchased. It is, however, expected that the visit of the French architect to America will greatly expedite matters. The Paris Association is in constant correspondence with Association men in different large cities and towns of France, and is sending its printed matter in all directions. Additional interest in the work is thus being constantly created. Although the place has not yet been decided upon, the National Conference meets again this year during the month of August. It will be a most encouraging gathering, for never before in the history of France has the movement in favor of the Associations been so strong nor so fruitful in results.

FRANKLIN GAYLORD, Cor. Mem.

#### GREAT BRITAIN.

During the past year the work in the United Kingdom of Great Britain and Ireland has shown an unprecedented amount of increase.

The total number of Associations in the United Kingdom which reported at the last return was 613, the number of centers at which Association work is represented being 756. Four Associations report new buildings during the year, viz.: Sheffield, Oxford, Hertford, and Exeter, at a cost of £30,722.

Much interest is being manifested in colonial and foreign work, and steps are being taken to form a British Intercolonial Union, whereby the various dependencies of Great Britain will be drawn closer into touch with the mother country.

A valued worker from Exeter Hall has proceeded to Calcutta, where it is hoped he will speedily found an Association such as will influence the whole Bengal Presidency.

It is arranged for an experienced secretary to leave for the Bombay Presidency early in the autumn.

Ceylon, Palestine, and Egypt are each claiming attention at the hands of the National Council, whilst the Cape Colony, with its 20 Associations, is being brought into the line of national organization.

Notwithstanding the severe and ofttimes unjust criticisms to which the

English work has for two or three years been subjected, the work is far stronger to-day in every respect than ever before, and is more and more becoming a recognized power in our national life.

E. J. KENNEDY, Cor. Mem.

#### HAWAII.

The past year shows a marked improvement in Association work in Honolulu. Six religious services are now sustained weekly; a Gospel praise service Sunday evening before church, two evangelistic meetings, one prayer meeting for men, one service at the jail and a Bible class. All but the first-named were begun since April, 1891, and the gross attendance at all these services has been about 7,000. Besides this, 1,363 persons attended a series of meetings held in Association hall by Ben Hogan, the converted pugilist. The attendance at the praise service has increased about 75 per cent. The present membership is 229, a net gain of 89 from last report. The receipts and expenditures for the year have been \$3,100. Classes in instruction in mathematics, drawing, etc., are held Monday and Thursday evenings.

The evangelistic labors of the Association under the leadership of the new general secretary, H. W. Peck, have been greatly blessed, and between thirty and forty conversions are reported, some of them miracles of God's power to save from drunkenness and gambling. At present the Association has a strong force of active and faithful young men, and the outlook is very hopeful. The Y. M. C. A. Boys continues successful. The maintenance of Queen Emma hall has been relinquished, after several years' support by the Association, as its financial burden was too great. But the Hawaiian Board of Missions has assumed its support and its usefulness as a centre of Christian influence has continued. No changes are noticed in the Hawaiian, Chinese, or Japanese Associations. That among the white population of Honolulu wisely confines its operations to its own race, though others who understand English attend some meetings.

A. F. Judd, Cor. Mem.

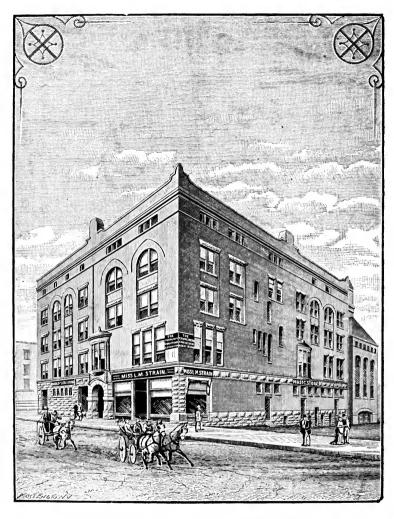

#### INDIA.

The past has been a year of special activity for the Indian National Committee. The character of the permanent basis for the national organization has occupied much of the thought of the business committee and necessitated much correspondence among the members of the full committee. This interesting and important question will be decided upon the adoption of the constitution at the convention to be held April 14-18, with the Bombay Association. Bombay and Madras—the two strongest Associations in India—have extended their borders in the direction of branches, and much is hoped for from them. The number of new organizations will be reported at the convention; the statistics are not yet prepared.

The Madras Association has enjoyed the co-operation of Dr. Pentecost, in a series of very interesting and successful evangelistic meetings, held daily throughout the month of February last. His return to Madras is earnestly desired by many.

WILLIAM I. CHAMBERLAIN, Cor. Mem.

ASSOCIATION BUILDING, BURLINGTON, VT.,

College and Church Streets.

DEDICATED, NOVEMBER 26, 1889.

Dimensions, 81x95 and 32x38 feet. Cost, \$100,000. Population in 1889, 15,000.

#### JAPAN.

The work of the Young Men's Christian Association is essentially new in Japan. Our Christian young men have generally been gathered into societies of various kinds, having for their purpose the propagation of Christianity and mutual improvement. The scope of these societies was limited to the individual churches with which they were in almost every instance severally connected, and their work confined to the publication of magazines and the holding of public lectures of an evangelistic or educational character. The necessity for the broader work of the Young Men's Christian Association has, therefore, been recognized. During the past year the desire for Association work has been intelligently expressed on the part both of the young men of the churches and of their pastors. We feel that it has in Japan a great responsibility and a hopeful field.

Of the church societies above mentioned the number is about 300; of the Young Men's Christian Associations there are 10. In general the work of these 10 Associations consists of evening schools, lectures and social meetings, and Bible classes and prayer meetings. But the work through-

out the empire has largely centred in the Tokyo Association.

In Tokyo permanent organization was effected early in the year by the formal election of directors, trustees, and a general secretary. The active work of the Association seems firmly, established and popular with the young men who are not Christians as well as with those who are. We earnestly desire that it may be of the highest usefulness to the young men of our nation, of whom such great numbers crowd our capital city.

The universal week of prayer for young men was observed for the first time in Japan last November. In Tokyo the meetings were held daily, and throughout the country the pastors were requested to preach sermons

in behalf of young men.

Satisfactory work has been and is being done in preparation for the erection of our new building, to the completion of which we are looking forward with great expectation of the increased usefulness it will bring to our work.

Taizo Miyoshi, Cor. Mem.

#### TURKEY.

Two interesting events have just taken place in connection with the Association work in this land; the visit of Mr. and Mrs. Wishard, accompanied by W. Henry Grant, of Philadelphia, and the gift, by a wealthy man of the place, of a building to the local Association at Aintab.

The first has been of special benefit to those Associations which came into contact with the delegation from America, and a matter of hope and inspiration to all; the second, a fact of great interest, marks an onward

step in the development of the work in this land.

Few if any of our societies have grasped the Association idea and methods, though some are active to a commendable degree in work along benevolent lines; but the field seems now to be ripe for the help of a guiding hand to direct the endeavors of the organizations now in existence. If such help is soon given and wisely directed, we may look for the development of an agency which will be a power for Christ in this land.

W. W. PEET, Cor. Mem.

#### BRITISH COLUMBIA.

(See Oregon.)

## MANITOBA.

We close our year with a credit balance and all accounts paid. Mr. Copeland, our Provincial Secretary, has done effective work. We have now eleven organizations as against seven last year; seven town and city, three college and one Indian Associations. Three general secretaries are employed. Seven other "young men's meetings" in village districts hold regular sessions for study of the Scriptures with relation to personal work, all inter-denominational.

We had 81 delegates at the annual convention held at Brandon in February. State Secretary T. E. Hildreth, of Minnesota, did us good service by his presence as a representative of the International Committee.

The summer institute at the Lake of the Woods was a great success under International Secretary H. E. Brown's direction, and the course of studies begun there has been continued by not a few.

Winnipeg looks forward to a building worth, with the land, at least \$75,000. Our young men have subscribed to purchase the lot, and we have also \$30,000 toward the building given by our merchants.

Mr. Mott's visit was highly appreciated and led to the organization of two College Associations.

ROBERT D. RICHARDSON, Cor. Mem.

## NOVA SCOTIA.

One of the most notable features of the work the past year has been the interest taken in the physical department. Several of the Associations have opened gymnasiums, more or less fully equipped, and conducted by competent physical directors. More effort has also been developed in work for boys, a number of branches having been started with good prospects of being very useful. Nor has the spiritual side of the work been neglected. Several of the Associations have been cheered by seeing quite a number of their members openly deciding for a religious life.

The convention of the maritime provinces met in August, at Truro, Nova. Scotia, and was attended by 137 delegates and corresponding members representing 18 Associations, 5 colleges and 4 junior departments. The International Committee was represented by W. M. Griffith, who was favorably known by a previous visit. The delegates reported a good meeting.

W. B. McNutt, Cor. Mem.

## ONTARIO.

There are now 34 Associations in towns and cities and 10 in colleges. This is a slight increase over last year, and more would have been done but for the prolonged illness of our Traveling Secretary, Mr. Cole. The college branch of the Provincial Committee has been especially active and has organized several new Associations. The convention just closed at London was one of the most successful held for a number of years, and showed marked progress and stability in the work. The work among rail-

way men is receiving attention, and there is prospect of branches being formed at several terminal points in the near future. Several district conferences have been held and with very good results. Work for boys is receiving more attention than at any former period.

JNO. J. GARTSHORE, Cor. Mem.

## PRINCE EDWARD ISLAND.

There are two Associations in this province, the same as last year. The Association at Charlottetown has secured the services of a general secretary, has opened an excellent gymnasium and employed an instructor, and a recreation room has been fitted up, with the effect of largely increasing the attendance of young men. Another important advance is making the work a definite one for young men; mixed meetings are a thing of the past. The Association at Summerside continues to do good work; the meetings are well sustained and the Association is making a good impression on the town.

J. D. SEAMAN, Cor. Mem.

## QUEBEC.

The Quebec Association is at present without a general secretary. The Association at Sherbrooke, under its new secretary, is doing an active and earnest work. The membership of the Montreal Association has reached 1,600, and the new building has the appearance of an African ant hill, swarming with workers in every department, and severely taxing the energies of the general secretary and his assistants. The religious meetings continue large and impressive, and bear much fruit. The physical director, W. H. Ball, Jr., a new man, from the Springfield Training School, is doing excellent work; the classes for pastors and business men, as well as those for young men and boys, are all thronged, and the great plunge and the shower baths are new and exceedingly popular features of the building. In the canvass for subscriptions for the new building the International Committee rendered very valuable and opportune assistance in the personal services of Secretary Claus Olandt, Jr., for which the Montreal Association is deeply grateful.

CHARLES CUSHING, Cor. Mem.

#### MEXICO.

The "Christian Association of Mexico" was organized in the year 1888. In March, 1889, its rooms, including a library and lecture hall, were opened for public use. Since that date these apartments have been constantly maintained, with religious service each Sunday evening.

January 1, 1891, a new constitution was adopted according to a model furnished by the International Committee. That committee also sent George N. Taylor to Mexico as its agent, to examine into and report upon Association work. As a result of his visit, arrangements were perfected with the Mexican National Railroad by which that road agreed to furnish \$1,000, under equitable conditions, towards thoroughly equipping our rooms. Mr. Taylor was then called as general secretary, and will take charge of the work in April, 1892.

The amount collected for our purposes in 1891 was \$2,435, all of which was expended.

HENRY P. WEBB, Cor. Mem.

#### ALABAMA.

Our work has made good progress during the past year. In three places the work has lagged owing to financial depression in the business of the towns, but with these exceptions there has been a general forward movement. There are four new Associations, and the old organizations have all been strengthened and confirmed in their work. Especially have the College Associations been active; their work is thoroughly organized, and we look for great things from the boys this year. The State Convention, held at Birmingham, April 7–10, was the most encouraging in our history, and we pray that it may be only an earnest of what the future has in store for us.

F. L. Willis, our State Secretary, is doing very efficient work. Great service has been rendered the work in Alabama by the International Committee through Secretaries Ober, Brockman, and Andersen.

JOHN G. MURRAY, Cor. Mem.

## ARKANSAS.

The fact that we were without a permanent State Secretary during the first six months of the year, together with the extremely depressed financial condition of the country, seriously effected both our state and local work. Under the blessing of God, however, we were enabled to employ a State Secretary, since which time the work has made satisfactory advancement.

The Associations reported a year ago are, with one exception, stronger in their organization, while at four points new Associations have been organized and promise well. The International Committee, through Secretary F. S. Brockman, has rendered valuable aid in organizing three new College Associations. Since the work in our state is largely of an educational character, we look hopefully to the college organizations, which are doing grand Association work.

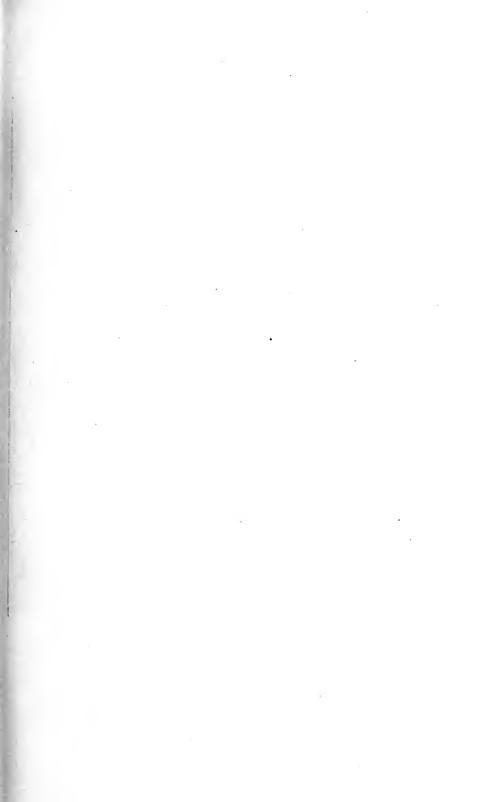

H. P. Edmonson, Cor. Mem.

## CALIFORNIA.

The eleventh annual State Convention, the largest ever held in the state, convened in Sacramento, October 14-19, 1891. Robert Weidensall and C. L. Gates represented the International Committee, and rendered most valuable aid.

Through the solicitation of the State Committee, Mr. Weidensall has also made a complete tour of the state, visiting the different Associations, holding conferences of boards of directors, working committees, etc., which has greatly increased the interest in Association work.

The visit of Secretary J. R. Mott to the various colleges and institutions of higher education was one of the most important events of the year. Two college conferences were held—one at Los Angeles, in connection with the University of Southern California, which was largely attended, and another at Berkeley, with the State University, which had nearly 200 delegates. This was the largest conference of the kind ever held in California. New interest was created in the great "student movement." Mr. Mott succeeded in organizing several new College Associations, the most important being that in connection with the Stanford University, at Palo Alto, organized with 50 members. He also rendered valuable service to many local Associations.

## ASSOCIATION BUILDING, ROCHESTER, N. Y.,

CORNER ST, PAUL AND COURT STREETS.

. Dedicated, November 10, 1890.

Dimensions, Cox160 feet. Cost, \$173,000. Population in 1890, 138,000.

The Association idea is constantly gaining ground in our state, and, as the work is becoming better known, its support, financially and otherwise, is more liberal. All things being considered, the past year has been the best in our history, and a large number of young men have been brought into touch with the work throughout the state, which is well organized and intelligently conducted along legitimate lines.

H. J. McCoy, Cor. Mem.

#### COLORADO.

The progress of Association work in Colorado during the past year has been more marked than ever before in its history. One Railroad and three College Associations have been organized during the year and are now doing efficient work. Trained secretaries are in charge of every field and modern Association methods prevail.

The Associations in Leadville and Aspen have been thoroughly reorganized, located in new rooms, and the money necessary for their

maintenance secured.

In November the State Convention was held at Pueblo and attended by 133 delegates. Messrs. Taggart and Gates, of the International Committee, rendered valuable assistance. The gathering was educational and helped the work in the state greatly. Pueblo has secured subscriptions to the amount of \$35,000 for a new building. Since the last report Colorado Springs has taken a leading position among the Associations of the state.

The State Committee feels deeply grateful for the supervision of the work by Secretary C. L. Gates. To his energy, sound judgment and tact

is largely due our present healthful condition.

W. L. GRAHAM, Cor. Mem.

## CONNECTICUT.

Among the factors for the spiritual and physical upbuilding of the young men of our state, our Association work is everywhere regarded as important. The churches are more and more accepting it as a field of labor to be zealously fostered, and business men are more readily and generously contributing to its support.

The work during the year has not been as aggressive as in some years, and yet advance has been made. The retirement of State Secretary Colley, on account of ill-health from overwork, partially disarranged the plans of the committee, and an unusual number of secretarial changes

militated against the progress for which we had hoped.

We have, however; four more Associations than at the time of our last report and our property has increased \$167,435. The building movement is being pushed. Bridgeport has completed a beautiful building which, together with the lot, is valued at \$140,000. Hartford has already pledged for her contemplated building \$112,000, and Norwich has over \$40,000. Other Associations are moving in the same direction with every assurance of success.

We lose from the chairmanship of our State Committee, because of failing health, Charles A. Jewell, who has so long and efficiently filled the position, and Dr. I. DeVer Warner, of Bridgeport, has been elected to the position.

Our State Convention, recently held at Meriden, was largely attended and of great excellence. Thomas Cochran rendered valuable assistance as the representative of the International Committee.

W. R. BURNHAM, Cor. Mem.

## DELAWARE.

(See Maryland.)

## DISTRICT OF COLUMBIA.

(See Maryland.)

#### FLORIDA.

The Association work in this state is at a very low ebb. But two organizations, Orlando and Tampa, are known to exist, and only the former of these is doing any work, although the room at Tampa is still kept open. The interest of Christian young men seems to be occupied along other lines.

F. A. Curtis, Cor. Mem.

## GEORGIA.

The work in Georgia during the past year has been carried on in the face of unusual difficulties and embarrassments. The great scarcity of money in this part of the country, caused chiefly by the low price of cotton, has depressed and discouraged all classes of our people. This condition of affairs has affected all enterprises to a greater or less extent, and has been felt by the Young Men's Christian Associations, not only in the difficulty in obtaining subscriptions and making collections, but also by producing a general feeling of discouragement among many of our warmest friends. Then, too, Georgia has been without a State Secretary since early in November, 1891. Had it not been for the timely aid of the International Committee, it is hard to say how discouraging the year's work might have been.

Nothwithstanding the difficulties, we have made some progress, having now 19 Associations in the state against 16 a year ago. The total membership in Georgia is now 3,074. The current expenses of the Associations for the year were \$24,836.

The history of the year shows in a very marked manner the importance of the International Committee to the state and local work. We can not overestimate the value of the services rendered by Messrs. Ober, Brockman and Andersen. For a detailed statement I would refer to the annual report of the State Committee made to the convention at Griffin in February.

With the intelligent assistance of Mr. Brockman, the college work in Georgia has been greatly extended. We now have seven College Associations in the state against three a year ago.

During the year the Atlanta Association has raised \$10,000 and completed the two upper stories of its building. The Augusta Association has commenced its building and proceeded far enough to occupy it. The

Athens Association has completed its building, and there is a fair prospect that the Savannah Association will soon have one. Considering the situation as a whole, I think that so far from being discouraged there is every reason to be hopeful.

HENRY HILLYER, Cor. Mem.

#### IDAHO.

(See Oregon.)

#### ILLINOIS.

The work of the Association is well sustained all along the line, and, on the whole, is at as high a point of efficiency as ever before in Illinois.

Organization of local and state work has been steadily improved. Chicago, with its nine departments, has met and solved many of the per-

plexing problems arising in metropolitan organization.

The building movement is well to the front. The Peoria building, costing \$120,000, has been dedicated. The Rock Island Association is in its new home. Other Associations with buildings, as at Englewood, and some without buildings, as at Galesburg, Pana and Joliet, are planning for enlarged or new construction in the near future. Though financial questions threatened danger in some points, but one disaster has overtaken us. By lack of foresight, to say no more, Moline has lost a building, into which \$30,000 had gone. The Chicago canvass has reached the point for the trustees to decide to begin construction. By the time of the World's Fair the Madison street department of the Chicago organization will have a home worth \$1,500,000.

The district conferences have been well attended, being as strong and large in some instances as the earlier State Conventions, and were attended

and followed by the blessed work of the Holy Spirit.

The College Associations have given us reason to rejoice in increase of number of Bible classes and the efficiency of the plan and execution of fall campaigns. Two college bands, one from Knox and one from Illinois, in the summer vacation reached 45 small towns, in which over 50 young men declared for Christ. The Association headquarters were again maintained at the annual encampment of the state militia with gratifying results.

The increase of the number of men's meetings and the spiritual power and purpose there shown is very marked. For several weeks last passed reports of conversions have not failed to come to the State Committee.

A very successful international convention of delegates from Railroad Associations was recently held in this state, to our great benefit.

The State Convention held at Jacksonville in October was in many respects, though not in numbers, the best ever held. The gatherings of the college delegates in conferences with Secretaries Mott and Burt were especially well attended and helpful.

At this date 85 Associations (40 secretarial points) have 75 secretaries and physical directors. Several changes in secretaries have taken place in the past year bringing the average of secretarial ability and consecration in the state to a very high point. Reports to the State Convention showed a membership of 12,595 in 78 Associations; 45 reading-rooms and 43 libraries.

Seventy Associations are now holding 123 men's gospel meetings weekly, and 13 are held in unorganized towns. But one mixed meeting is now regularly held in Association rooms in the state, and that is in railroad work. Forty-four Associations report 70 Bible training classes, and 1,472 professed conversions were recorded in the year ending October 1, 1891. The State Executive Committee still employs six assistant secretaries under the youthful veteran State Secretary, I. E. Brown. With an 1891 budget of \$16,000, the committee passed into 1892 with pledges more than covering all indebtedness.

ARTHUR D. WHEELER. Cor. Mem.

#### INDIANA.

There are now 27 Associations in Indiana, besides several prayer bands, maintaining young men's meetings. This is a gain of 35 per cent. since our report a year ago. At the twenty-second State Convention, held at Indianapolis, in November, all our Associations (then numbering 24) were represented, the number of delegates being 267, the largest in the history of our work. There were some quite remarkable features in the State Committee's report, the year having closed without the loss of a single Association and without a change in the general secretaryship; the financial condition also was better than ever before.

The total membership in November was 4,530, and the total current expenses reported amounted to nearly \$40,000. The value of buildings and other real estate was \$292,900. The new building at Evansville, costing complete over \$75,000 has been opened, and is the finest Association building in the state. The erection of the \$30,000 building at New Albany will begin very soon; at Richmond \$20,000 has been raised, and it is hoped that the project may be pushed through this year.

Our college work is in much better condition than ever before, the total number of College Associations being 15. A third railroad department has been opened at Logansport, and active steps are being taken in other important railroad fields. A beginning has been made at regular district work.

Another substantial feature is the marked increase in support from the business men of the state toward both building projects and the current work. State Secretary Stacy has completed his first full year with us, and we hope to provide an assistant before this year is over.

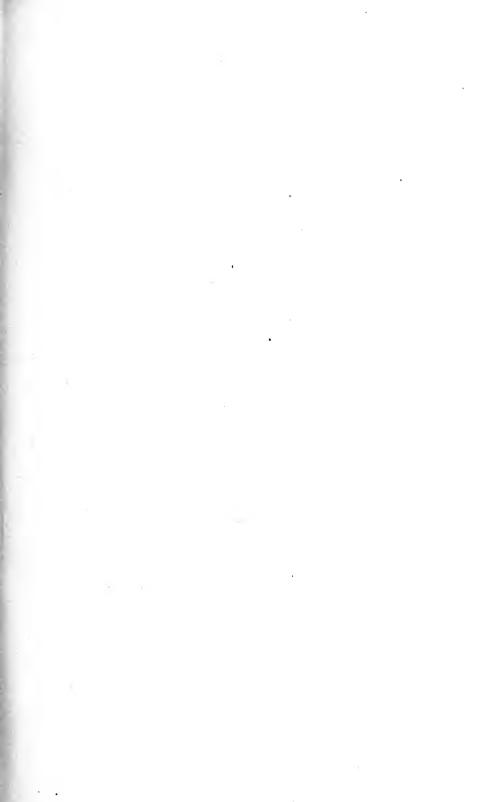

We have had brief and helpful calls from Secretaries Ober, Hague and Hicks, the latter having assisted us materially at two railroad points. J. C. White did good service in some of our College Associations, and J. R. Mott was of great assistance at our convention.

WALTER C. NUNEMACHER, Cor. Mem.

#### IOWA.

The past year has marked great advancement in the Association work in this state. There are at present 50 Associations—23 college, 1 railroad and 26 city and town. Thirty men are giving their whole time to the work as secretaries and assistants, all but two being present at our recent conference.

Four buildings have been opened; Des Moines, worth \$80,000; Clinton,

ASSOCIATION BUILDING, ROCK ISLAND, ILL.

THIRD AVENUE AND 19TH STREET.

OCCUPIED, APRIL 2, 1891.

Dimensions, 60x140 feet. Cost, \$25,000. Population in 1891, 13,500.

\$15,000; State University, Close Hall, \$34,000; Marshalltown. \$5,000; The building at Ottumwa, worth \$35,000, will be opened next month. The large gifts of this year are: a bequest of Mrs. Newcomb to the Davenport Association, \$1,000; endowment of H. L. Warner to the Sioux City Association, \$5,000; second gift of Thomas D. Foster to the Ottumwa Association, \$5,000, making his subscription \$10,000; and W. J. Young's gift of a fully equipped building to the Clinton Association, worth at least \$15,000. There has been an increase in property of not less than \$70,000. The interest in the railroad work continues, two points are receiving help from the companies; a railroad deputation consisting of two Christian engineers will give one Sunday each month, under the direction of the State Committee, to visiting division points. The college work has made commendable progress, and the college deputation has been of great assistance. We had the largest number of institutions represented at the Lake Geneva Summer School of any state in the west. The building at the State University was dedicated in November, and the results since entering it justify the expectations of those whose faith and self-sacrifice made it possible. Two other colleges have started building funds during the year.

The district work has made a decided advance, the new arrangement of districts proving beneficial. Seven conventions were held, nearly every one of which was followed by a spiritual quickening in the Association or city. At one place the convention was the beginning of a series of meet-

ings in which over fifty young men professed conversion.

The spiritual results have been very gratifying, larger than any former year. The counsel and help of the International Committee have been greatly appreciated.

M. H. SMITH, Cor. Mem.

## KANSAS.

Although there have been many difficulties to face during the past year, and with many of the local organizations it has been a struggle for existence, the report from the Kansas Associations is "Still on the way." From the reports at hand we have 41 city and 22 College Associations, also one county organization. The city Associations have 24 general and 2 assistant secretaries, and 1 gymnasium superintendent. These, with the secretaries of the State Committee, make a total of 30 engaged in the work in this state. The tenth annual State Convention was held at Parsons, October 21–25, and was well attended. The State Committee reported an expenditure of \$8,014, with no outstanding liabilities. During the year 7 district and 4 county conferences were held, attended by 459 delegates.

The fourth annual Bible school, held in Bismarck Grove, Lawrence, was a gathering of great interest, the attendance averaging about 300. The gospel wagon was on the road during the summer and met with very encouraging results.

FRED. W. PARROTT, Cor. Mem.

#### LOUISIANA.

There has been no state work during the past year. The New Orleans Association is in a fairly prosperous condition. The Centenary College

Association has continued its well directed efforts, which have resulted in several conversions. Considerable interest is also manifested in the work of the Association at Baton Rouge. As far as we can learn, there has been but little activity manifested by the few other Associations in the state.

CHARLES H. SHUTE, Cor. Mem.

#### MAINE.

In my report of last year I stated that the work had suffered owing to the resignation of the State Secretary. We have quite recovered the lost ground. Our State Committee last spring secured the services of R. H. Shelton, who has labored faithfully and with marked success. The resignation of four of our general secretaries during the year, has interfered seriously with the progress of work in some places. New secretaries, however, have taken their places, and we expect good things from them.

Two new Associations, at Freeport and Houlton, are reported as in good condition and doing excellent work. The Association at Bangor has entered its new building, which is a model for good appointments and adaptation. The Association has been enabled to increase its efficiency many fold. Portland has conducted a quiet canvass during the year and has now a large building fund. The Association has recently purchased a fine lot

and expects soon to commence building.

The condition of the Associations throughout the state is generally good. The college boys are deeply interested in the work and have arranged deputation visits to include all of the College Associations in the state. The spiritual condition of the Associations is good and many conversions are reported. The State Convention was held at Bangor, October 29 to November 1, 1891. It was largely attended, and much interest was manifested. Representatives of the International Committee were present at the convention and rendered material aid.

WM. S. COREY, Cor. Mem.

# MARYLAND, DELAWARE, DISTRICT OF COLUMBIA, AND WEST VIRGINIA.

The twentieth annual State Convention was held at Parkersburg, W. Va., January 14-17, 1892, 18 Associations being represented by 59 delegates and 18 corresponding members. The International Committee was represented by J. R. Hague, who, with State Secretaries S. D. Gordon, of Ohio, and C. E. Hurlburt, of Pennsylvania, greatly aided in making this one of the most encouraging and helpful conventions we have ever held.

Several district conventions have been held. The resignation of State Secretary A. H. Zimmerman, to enter the ministry, took effect September 1. J. C. Sims, general secretary at Erie, Pa., was chosen to fill the

vacancy, and entered upon the work November 10.

The year closed free of all indebtedness, with a small balance in the treasury, and \$2,558 were pledged for the support of the state work this year. Reports from the Associations showed a gratifying growth.

The total number of Associations in our states is 35. Seven new ones, Charleston, Huntington, Ronceverte, Hinton R. R. (by the International Committee) and Bethany College, West Virginia; Baltimore and Ohio

and Pennsylvania Railroad Branches, Baltimore, were organized. Thirty-five men are devoting their entire time to the work, an increase of 17. Six new secretarial points have been added.

The building movement is spreading. Several Associations report building funds. Cumberland, Md., has organized for a canvass, Wilmington, Del., is making rapid strides toward procuring a home, the German Branch, Baltimore, is occupying the handsome building recently purchased, Washington is planning to secure a building that will meet the increasing demands of its extensive work, and many other Associations are enjoying increased facilities.

Special attention has been given to the spiritual part of our work, Bible study and personal work being emphasized. Baltimore, Washington and Wheeling each held a series of evangelistic services during and after the week of prayer, 257 young men professing conversion.

There has been a marked growth in the college work, and the deputa-

tion plan is being successfully carried out.

Increased interest is being manifested by the railroad corporations and men, and three new Associations among railroad men have been organized.

The International Committee has rendered us valuable service in many ways, and has cheerfully responded to our requests.

W. H. H. SMITH, Cor. Mem.

## MASSACHUSETTS AND RHODE ISLAND.

The past year has been one of steady progress, and the benefits of Association work have been appreciated by the community more than ever before. We have 77 Associations, 13 of which are in educational institutions. We have a total membership of 23,112; 9,970 of which are active members, and 3,161 serve on various committees.

Associations have been organized this year at Framingham, Quincy, Marlboro, Tabor Academy at Marion, Norwood, and the Cambridge As-

sociation has opened a branch at East Cambridge.

There are 114 general secretaries and other paid officers. Ten Associations have moved into new and attractive rooms. Two Associations have moved into new buildings, Providence, the building costing \$190,000, and New Bedford, the building costing \$70,000. The Holyoke Association has broken ground for a building to cost \$100,000, \$60,000 being already pledged; and Southbridge, with a population of 7,700, is to have a \$75,000 building, of which \$60,000 are pledged.

Special attention is being given to district work. Young men's meetings have been established at two points where there are no Associations. Local and college deputation work is being prosecuted with gratifying

spiritual results.

The usual all-day conference of State Committees and general secretaries was held.

The first annual junior department conference was held at Everett, in January, 1891; the second at Hyde Park, January, 1892. Junior department camps were features of the summer work. Large numbers of Association men attended the summer encampment at North Lubec during July and August.

The women's auxiliary conference was held at Worcester. There was an inspiring gathering of two hundred delegates.

The State Convention was held at Brockton, October 22-25, there

being 519 delegates.

The State Committee is to have a building for its own use, the cost of which will be from \$75,000 to \$100,000. \$14,500 are already subscribed, \$11,000 of which are in \$1,000 subscriptions. The State Committee closed the year, as usual, with all bills paid, and a balance in the treasury, having expended nearly \$8,000.

Spiritual results-903 men have professed conversion through the efforts

of our Associations.

O. H. DURRELL, Cor. Mem.

## MICHIGAN.

The work of the year has been mainly the strengthening of existing Associations. No new ones have been organized, although special preparatory work is now in progress at four different points.

There has been quite an advance in building movements. The Kalamazoo building will be dedicated in June, Grand Rapids has one commenced, Alma College has raised \$1,000, and Detroit railroad department

hopes to commence its building soon.

Among the colleges considerable progress has been made. Deputation work has not been pushed as vigorously as last year, owing to sickness and other reasons. A new deputation is about to be organized. The statework has taken a step in advance by the appointment of an assistant state secretary, H. M. Fillebrown.

H. M. Clarke continues as State Secretary, and the solid character the-

Associations in the state are assuming is proof of his efficiency.

Six district conferences were held during the year, and another series is now in progress. These were attended by 225 delegates, exclusive of those

appointed by Associations at the places of meeting.

A new feature has been the holding of local conferences in unorganized towns under the direction of the state and district committees. Seven such conferences have been held with good results. Thirty-four paid officers are employed by eighteen Associations. The work at the military encampment reached fully double the number of men of any previous year.

The State Convention, held in October, was marked by great spiritual power. There were 248 delegates present, being an increase of 29 over last year, every Association in the state except two being represented. A larger number of conversions was reported from local Associations than for any previous year.

The International Committee was represented by John R. Mott and

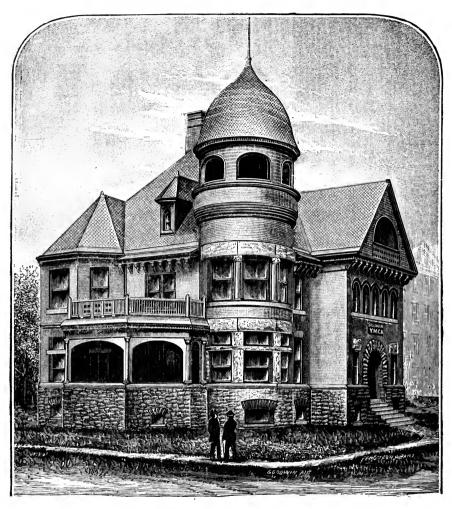

C. E. Dyer, each rendering valuable service.

J. R. DUTTON, Cor. Mem.

#### MINNESOTA.

Steady progress has been made in Association work along the lines that count for the most in permanency and results. Weak Associations have been greatly strengthened. Two new buildings are now occupied; one at Duluth, valued at \$35,000, and the other at Minneapolis, valued at

ASSOCIATION BUILDING, HAMILTON COLLEGE, CLINTON, N. Y., DEDICATED, MAY 2, 1889.

Dimension, 46x56 feet. Cost, \$25,000.

\$160,000. The State Convention was held in East Minneapolis, as the guest of the State University, with an attendance of 151. H. E. Brown and J. R. Mott, of the International Committee, were present and rendered valuable service.

The work in College Associations has been strengthened, especially in reference to Bible study, 150 young men being in Bible classes. The student vacation evangelistic work met with great success; 58 students visited 12 towns, and reported 225 conversions, the majority of this number being young men.

A new Association has been organized at Mankato, and a county organization formed in Rice county. Nine local and five district conferences have been held.

The first session of the Northwestern Institute met at Lake Minnewaska in August. H. E. Brown, of the International Committee, conducted several valuable Bible studies, illustrating his method of study by books.

Changes in the secretarial force have taken place at Brainerd, Winona, St. Paul, and Mankato. Twenty-three secretaries and physical directors are at present employed in the state. Messrs. Morris and Chester, under direction of the State Committee, visited 51 lumber camps, reaching over 1,500 woodsmen, and John Coldwell did evangelistic work among the men for three weeks.

JOHN H. ELLIOTT, Cor. Mem.

#### MISSISSIPPI.

The work in Mississippi has made little progress. We had a fine State Convention at Natchez in April, 1891; good attendance, good papers and very helpful to all present.

The International Committee has not forgotten us. C. K. Ober made two visits to the state, and he and H. P. Andersen also met the State Committee in January, 1892.

We have not put a State Secretary in the field, because we have not felt justified in engaging a man for a whole year. We have only one general secretary. The Association at Natchez is doing fine work and seems to be thoroughly established.

J. R. Dobyns, Cor. Mem.

#### MISSOURI.

In reviewing the work of the year, we are glad to record the honor our state has enjoyed in entertaining the twenty-first International Secretaries' Conference, and the twenty-ninth International Convention, held last spring, in St. Joseph and Kansas City, respectively.

Another important event was the going forth from Missouri as a representative of the International Committee for the establishment of Association work in Brazil of Myron A. Clark, assistant secretary of the Kansas

City Association

The work in the state has been one of growth and prosperity. We have 42 Associations: 20 in cities and towns, 15 in colleges, 4 among railroad men, 2 for German-speaking young men, and 1 for colored young men. Five of these were organized during the year, among them being Maryville, Joplin and Marshall, which are secretarial points. Some of the smaller

and less important Associations have disbanded, but the loss has been more than made up by the number and character of those organized. The college work has been brought up during the year to the highest degree of proficiency it has yet attained. This was accomplished: (1) through a monthly intercollegiate letter; (2) by use of college deputation men; (3) by a conference of College Association presidents held during vacation. During the greater part of the year we were without a State Secretary; we desire to say, however, that Mr. Child, our assistant, so efficiently discharged the duties of his office that the work has not suffered, and last fall he was elected as State Secretary. Rev. E. M. C. Botterill, our Evangelistic Secretary, was with us only a portion of the year, during which time he held meetings for young men at 14 points with gratifying results.

The committee also employed temporarily two men for special work; J. S. Langhorne in the state office and at Sedalia, and S. A. Kincaide at Hannibal. Although the working force of the committee has not been so large as last year, the work has not run behind, because of the time and

attention bestowed upon it by individual members.

A very successful State Convention was held at Hannibal last October, with 187 delegates present. Four excellent district conferences were also held.

We cannot close this report without thanking the brethren mentioned below, and the committees which they represent, for the invaluable aid rendered by them, viz.: Messrs. J. R. Mott, S. A. Taggart, F. S. Brockman and R. R. McBurney, representing the International Committee; S. D. Gordon, State Secretary of Ohio; W. M. Parsons, assistant state secretary of Iowa; S. M. Sayford, the college evangelist; also J. H. Elliott, general secretary, Minneapolis, Minn.; and G. K. Shurtleff, general secretary, Denver, Col.

T. S. McPheeters, Cor. Mem.

#### NEBRASKA.

There are at present thirty-five Associations in the state divided as follows: 25 general, 9 college and 1 railroad. The work in Omaha has been greatly extended and a competent general secretary secured. The Lincoln Association expects to occupy its new building May 1. financial condition of the other city Associations is much better than a year ago. The State Convention was held at Lincoln, November 5-8, and was attended by 338 delegates. Five district committees have been thoroughly organized, and conventions held in each district with good results. The number of corresponding members in unorganized towns has been increased to 61. These members prove quite helpful. Excellent work has been done in the nine College Associations; especially is this true of the State University, a band of its students having spent ten weeks in visiting small towns and holding meetings for young men, with good results. The committee desires to extend this work during the coming The railroad work at North Platte, on the Union Pacific, has been successfully continued with a general secretary in charge; but at Grand Island it seemed wise to combine the railroad department with the city organization. Arrangements are being made to open up other railroad points. The county organization in Gage county has been continued

during the year with a county secretary, and at the second annual convention held at Beatrice, February 12-14, there were 55 delegates in attendance, and provision was made for the continuance of the work. A summer conference for Bible study was held at Crete, with attendance of 231. This was the most spiritual meeting ever held by our Associations, and the results have been felt throughout the entire state. Continued attention has been given to the organization and fostering of young men's meetings and Bible training classes in small towns where it was not practicable to organize Associations. The International Committee has rendered valuable services in the state during the year through Secretaries Weidensall, Brown, and White.

George A. Joplin, Cor. Mem.

## NEW HAMPSHIRE.

The past year has brought about many changes among our workers; E. A. Lawrence resigning the state secretaryship to enter the evangelistic field, and four of the six local secretaries having been transferred to Associations in other states. The vacancies have all been filled, however, and the future of the work in our state never looked brighter. Each of the six Associations employing a secretary is doing what it can toward securing a building, the building funds varying from a few hundred to several thousand dollars. The rooms of the Concord Association have been greatly improved, and the Dover Association has moved to new and better quarters. In all the city Associations good progress has been made along all lines of work, and the same may be said of many of the smaller organizations.

The twenty-fourth annual State Convention was held at Laconia, December 10–13, and was the strongest and most successful yet held in the state. The International Committee was represented by H. M. Moore, of Boston, and Secretary Hague. There were also present many Association workers from other states. At and immediately following the convention over one thousand dollars were pledged for the coming year's work. R. H. Shelton has been appointed State Secretary, beginning his work February 1, 1892. (Mr. Shelton is to divide his time between the states of New Hampshire and Maine). Many thanks are due the International Committee for the valuable assistance rendered at various times and in various ways during the year.

H. E. FAY, Cor. Mem.

## NEW JERSEY.

The condition of the work in this state is that of vigor and healthful growth. Five Associations have been organized in cities having an aggregate population of 60,000. The total membership has increased more than 1,000.

Six general secretaries and six assistants have been located at new points. A great gain is noted in the material interests of the Associations, such as buildings, building funds, and improved facilities. The spiritual phases of the work receive earnest attention and show gratifying results.

D. R. Todd has been located as general secretary at Princeton College, and will do much to aid the general college work. Much time of the

Executive Committee and State Secretary has been devoted to the rail-road work, but as yet no new Associations have resulted therefrom.

The state and district work is thoroughly organized. Corresponding members have been appointed in thirty different places. The district conventions have been well attended and of decided profit.

The recent state convention at Paterson was a strong one both in the programme presented and the character of the delegates attending it. A pleasing result of the meeting was the gift to the local Association of a building and grounds, well located, valued at \$35,000, while a similar amount has been contributed by citizens for alterations and extensions.

The State Committee has received a gift of fourteen acres of land at Asbury Park, together with suitable buildings, gymnasium, athletic field, etc., to be used as an Association resort, and to be known as Wanamassa Camp. Courses of study, including the Bible, Association methods, and gymnasium work, will be held during the summer.

The International Committee has aided in locating secretaries and in organization.

EDWARD P. HOLDEN, Cor. Mem.

## NEW YORK.

At the annual State Convention held at Auburn, February 18-21, 40,000 members were represented by 600 delegates from 148 Associations, an increase of 12 Associations and over 2,000 members. The total value of property is \$3,367,474. There are 41 buildings.

At the first State Convention, in 1866, the total number of Associations was 27, while now there are 27 in the railroad department alone, an increase of one during the year. Great prosperity has attended this department, and there is not a railroad company in the state but is fully alive to its great worth. Increased restaurant and sleeping accommodations are needed at several points.

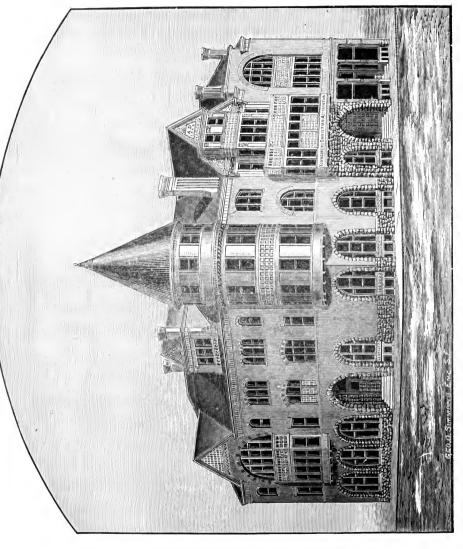

District committees are maintained and conventions held in the ten districts of the state, and young men in towns where no Association is organized are brought under the influence of the work through the appointment of corresponding members.

There are 17 College Associations, with 2,000 members. In all these colleges the Associations have emphasized the great value of the English Bible, and through their earnest efforts special courses in instruction have been prepared. Endeavor is also being made to introduce Bible study into he unorganized institutions. Under the direction and with the aid of the deputation committee two visits have been made to each College Association.

Since the last convention a secretary has been giving the work among boys particular attention, and organized boys' departments are maintained in 45 Associations. Three conferences were held in May, 1891, with excellent results, and a boys' camp was held on the shores of Lake Champlain at which 80 boys were present and 19 were reached in the spiritual work. This department is one of the most prominent features of the Association work, direct results encouraging greater effort.

At the state military camp an aggressive work was carried on among the members of the national guard last season and a provisional organization

effected with fifty-two members. Three tents, in charge of a secretary and assistant, were provided with requisites for reading, correspondence, entertainments, religious services, and indoor and outdoor games, making a pleasant and helpful rendezvous for the men.

The Bible study committee has encouraged Bible study and training classes in every Association for the training of Christian young men to be-

come effective workers among their fellows.

There are at present three Associations among non-English speaking young men, while efficient work is also being done for commercial travelers, and among lumbermen, and for the promotion of personal purity.

Although no buildings have been dedicated during the past year, fifteen Associations have conducted building canvasses and several buildings are

nearing completion.

Four secretaries of the State Committee are employed, one giving but half his time. The International Committee and its secretaries have also effectively assisted the work by their counsel during a year that has been full of labor and not a little difficulty.

Our beloved State Secretary, Rev. George A. Hall, has through serious illness been able to give but little active work to the cause, and his inspiring presence has been greatly missed; yet his remarkable power of organization is shown in the continued excellent condition of the Associations and the work generally throughout the state, and we are now cheered by the expectation of his speedy resumption of active duty at the head of our executive force.

WM. H. MICHALES, Cor. Mem.

## NORTH CAROLINA.

The work has been one of steady progress during the entire year. Little effort was made to establish new Associations; the work of both our secretaries (an assistant was employed during most of the year) being given to building up those already established at the centres of population. It is not known that any Association has died during the year. The Association at Raleigh has been reorganized and apparently put upon a sound basis. The district conventions, five in number, were more largely attended than ever, and proved more influential in their results. Twelve Associations have general secretaries and six own their buildings.

The financial crisis of the last season has greatly impeded our plans;

nevertheless, we are likely to close the year without debt.

The State Convention to be held at Greensboro in March promises to be largely attended. The work in the state may be said to be on a solid basis, seems to be well managed, and to enjoy the respect of the community.

GEORGE B. HANNA, Cor. Mem.

## NORTH DAKOTA.

The work in the state, outside that for Indian young men, has been confined to two points, Grand Forks, where is located our only College Association, and Fargo, with its combined city and railroad work. At both these places, however, good work has been accomplished, and we are planning to make that for railroad men more effective than ever before.

At Grand Forks a city Association has been organized; a good beginning

has already been made and rooms will soon be opened. District work is needed at several points. We have received valuable help from the International Committee in the visits of Secretaries Hicks, Gates and Brown. Also from Messrs. Hildreth and Elliott on behalf of the State Committee.

WM. H. WHITE, Cor. Mem.

#### OHIO.

The past year has shown continuous and gratifying progress. The magnificent new building in Cincinnati was opened in November and is complete in every detail. Architecturally, it is one of the finest Association buildings in the world. The new building at Columbus will be handsome, commodious, and admirably adapted for Christian work. New buildings have also been secured at Mansfield and at Middletown. The Associations in Ohio now own real estate valued at \$840,000.

District conferences have been held at seven points with a total attendance of 341 delegates. The meetings were largely attended by the citizens of the towns and great religious interest was awakened. This was notably true at Piqua, where a genuine revival began which continued for several weeks with the happiest results.

The railroad work has prospered. New rooms have been secured at Columbus with large additions to the regular membership. New facilities have been secured at Cincinnati for the employés of the roads centering in the west end, and the railroad companies have been very generous in furnishing and maintaining the rooms and a temporary hospital.

The College Associations have done better work than ever before. S. D. Gordon, the State Secretary, has shown great ability in the systematic organization of college work, and in the thorough instruction of the officers. Ohio now has 30 active Associations in colleges, and is, without question, the banner state in this department of the work. Every president of a College Association is carefully instructed and prepared for his work in advance, so that before the beginning of each college year his plans are formed, his committees organized, and the active Christian campaign commences on the first day of the fall term. An extension has also been made. In Cincinnati and Cleveland systematic labor has been carried on among the students in the professional schools, and in Cincinnati an assistant secretary devotes his entire time to this department.

The number of Associations in the state has increased during the year from 71 to 78, and the number of men devoting their entire time to Association work from 65 to 75.

The State Committee has kept three men constantly in the field, and has expended about \$6,250 in the most careful manner. We hope to have \$9,000 at our command during the coming year. We gratefully acknowledge the assistance of the International Committee and its field secretaries.

The State Convention at Akron, in February, marked the 25th anniversary of the Ohio State Association. It was very gratifying to have present as delegates four of those who were delegates at the first convention at Columbus. Our beloved brother, H. Thane Miller, who presided at the first convention, presided at the recent one, a quarter of a century later.

H. P. LLOYD, Cor. Mem,

## OREGON, WASHINGTON, IDAHO AND BRITISH COLUMBIA.

During the past year Idaho has been admitted to the Pacific Northwest group, and its Associations were well represented at our State Convention held at Spokane, September 24. J. A. Dummett continues as Traveling Secretary, and is giving excellent satisfaction. Three new general Associations have been formed, at Moscow and Boise City, Idaho, and New Whatcom, Washington. Some half dozen railroad points were also organized, but the wholesale reduction of expenses on the Union Pacific necessitated the abandonment of all but one, Pocatello, Idaho. financial stringency has also hindered the building movement. However, Port Townsend and New Westminster have completed and occupied their new homes. Vancouver has an elegant building under way, and Seattle, now occupying the larger part of its building, expects to complete the structure this year, when it will own the finest Association building in the Pacific Northwest. Tacoma has over \$100,000 subscribed, and expects to break ground for a new building this spring. Portland has a fund of \$20,000, and is soon to commence an active canvass. Our Associations own property in buildings and lots valued at \$118,000, and have funds, subscribed and partly paid in, of at least \$132,000. The district work has been successfully continued. Three conferences will be held this year, at Victoria, B. C., Olympia, Wash., and Astoria, Oregon. The college work has been reorganized and greatly aided through the visit of Secretary The second session of the secretarial institute was held at Lake Deborah, Wash., at which valuable aid was rendered by Secretary H. E. Brown. The International Committee was also well represented at the State Convention by E. D. Ingersoll and Secretary Gates. The next State Convention will be held at Tacoma, Wash., in September.

J. THORBURN ROSS, Cor. Mem.

## PENNSYLVANIA.

Pennsylvania has now 136 Associations. A number of the smaller ones have dropped out of the list, but well equipped organizations with general

secretaries are taking their places.

There has been a steady increase in the work along all lines. The effort to secure larger membership in organizing has proven a success. Much interest has been awakened in the line of Association buildings. The Wilkes-Barre Association has entered its beautiful new building, while many of the smaller towns have reorganized their work with larger and better furnished rooms. Five of the new Associations are in educational institutions.

Our last convention was small, owing to location, but was one of great profit. Our state secretaries have all been doing earnest, efficient work.

C. H. ZEHNDER, Cor. Mem.

## RHODE ISLAND.

(See Massachusetts.)

## SOUTH CAROLINA.

We are endeavoring in South Carolina to solve the problem of permanent work in small towns by erecting buildings in every possible place. Lots

have been secured in the towns of Walterboro, Cartersville, Anderson, Meeting Street, Jamison, Mount Willing, and in the city of Columbia, and

buildings have been erected at the two first-named places.

We have given special attention to the development of county work; two county conventions have been held during the year, and Edgefield county maintains a thorough organization, with an excellent county secretary in charge, who devotes his entire time to the work. The first state college conference was held last December; 7 institutions were represented by 44 students and professors. This conference has given a decided impetus to the college department, and its practical results are already apparent.

A conference between representatives of our committee and the International Committee was held at Orangeburg, in October, to consider the question of doing more among the colored young men of the state. The meeting was harmonious throughout and practical good will result.

South Carolina has closed her first year with the continuous service of a State Secretary. Our progress has not been marvelous, but there has been a decided advance all along the line.

There are four Association buildings in the state and eight men are

employed in secretarial work.

Helpful service is acknowledged from the International Committee in the way of visits from Secretaries C. K. Ober, W. A. Hunton, and F. S. Brockman, each of whom has been wise in counsel and earnest in good work.

A. T. Jamison, Cor. Mem.

## SOUTH DAKOTA.

At the tri-State Convention, which was held in Sioux Falls, South Dakota, in October, 1890, the state of South Dakota was severed from Minnesota and North Dakota. The first State Convention of this state was held at Mitchell, September 3, 1891, and was attended by 59 delegates. It was a convention full of power, and many excellent papers were presented upon the several phases of Association work. Secretary S. A. Taggart, of the International Committee, by his presence and counsel, greatly aided in shaping this first convention. Directly after the convention the State Committee met for organization, but owing to the unexpected resignation of F. B. Smith, who had been elected State Secretary, the work of the committee has been brought to a temporary standstill. There are at present 24 Associations in the state, including the 15 Indian Associations. Rev. James Garvie, a native Indian, has given much time the past year under the direction of the International and State Committees to aiding in the work among the Indians.

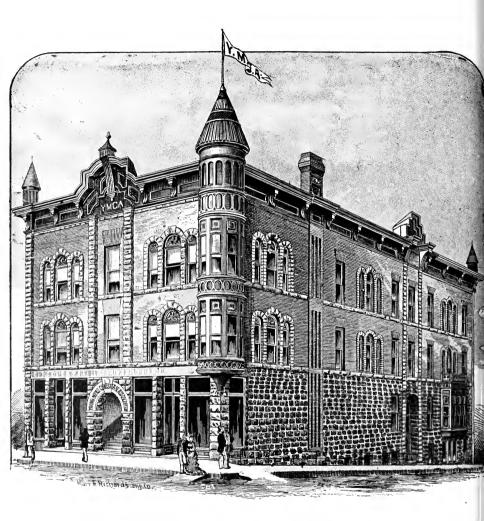

C. I. PALMER, Cor. Mem.

## TENNESSEE.

The work in Tennessee has been considerably hampered during the past year by the financial condition of the country, great difficulty having been experienced in raising sufficient money for the city Associations; but difficulties have only stimulated effort, and no serious results are to be anticipated.

A number of small town Associations have disbanded, but their places have been taken by others, leaving a total of 48, an increase of one.

ASSOCIATION BUILDING, FREEPORT, ILL.,

STEPHENSON AND WALNUT STREETS.

DEDICATED, SEPTEMBER 17, 1889.

Dimensions, 49x120 feet. Cost, \$26,000. Population in 1889, 12,000.

The College Associations have been greatly stimulated by the deputation work and were never in as prosperous condition as at present. Four district and two college conferences were held during the year.

Our State Convention was held at Harriman, September 24–27, with 170 delegates, an increase of 30 over any former year. Messrs. Weidensall and Brockman ably represented the International Committee and rendered valuable assistance.

Our Associations report 182 young men led to Christ during the year; 44 young men's meetings and 16 training classes were held weekly; 10 College Associations report receptions for new students, and 3 carried out the "fall campaign" in full.

The beautiful building on the campus of the University of Tennessee, the first College Association building in the south, elegantly furnished and equipped with gymnasium, bath-rooms, parlors, etc., has been occupied since the beginning of the fall term.

JAMES H. COWAN, Cor. Mem.

## TEXAS.

The past year has been one of unusual and constant struggle with many of our Associations and also with the state work, owing to the general stringency of money matters.

We now have 21 general Associations, with a total membership of 2,601. In addition to these, there are 11 College Associations, with a membership of 313. This makes 32 in all. One year ago we had 31, including 5 College Associations. There are 12 secretarial points, and 18 persons give their whole time to the work, the same as last year.

The State Committee has prevented several important Associations from being disbanded, and has been the means of the organization of several new points.

The International Committee rendered valuable assistance by the presence of two of their secretaries at our State Convention at Waco last April. They have also been a great help in the college work by the visits of Secretaries J. C. White and F. S. Brockman.

J. P. Jackson, Cor. Mem.

#### VERMONT.

The reports from the Associations in Vermont employing secretaries show the work in the state to be in a thoroughly prosperous condition. Burlington and Brattleboro Associations appear to be especially so from every point of view. General Secretary Fuller, of Brattleboro, is constantly agitating the question of a building, and we believe his anticipations will be realized in the near future.

The new Association at Bennington presents a good report both as to its financial and spiritual condition. The Association at Rutland has fitted up a very pleasant and commodious suite of rooms. Both this and the St. Johnsbury Association have been without secretaries for some months.

The co-operative work between the young people's societies and the Associations, mentioned in last year's report, has been carried into effect by the State Committee and already some good results are reported. The International Committee has rendered very efficient service in connection

with our State Convention, etc. The Associations connected with the colleges are doing excellent work and the labors of the deputation men have been very beneficial.

G. F. NORTH, Cor. Mem.

## VIRGINIA.

The past year has been one of notable increase along many lines. Seven Associations have been organized and five general secretaries have been employed in new fields. There are at present 65 Associations in the state, and 33 men are giving their entire time to the work. One college, one secretaries' and four district conferences have been held. The building fund at Petersburg has been increased \$7,000 and the ground is already broken for the new building, which will cost when completed \$40,000. Evangelistic meetings have been held at 18 points, and 38 Associations report over 350 professed conversions.

The second annual summer encampment for the Association men of Virginia was held July 7-19, at Hampton, nearly 200 attending. The Bible study was in charge of Rev. J. W. Dean, of New York. Such a marked success has this feature of our work been that the recent State Convention was unanimously in favor of its continuance from year to year. Thomas K. Cree represented the International Committee at the encampment

Special acknowledgment should be made of services rendered by C. J. Hicks in connection with the railroad work at Roanoke. The present development of the railroad work in Virginia is largely due to his efforts. These have been ably seconded by our state secretaries.

The annual college conference was held at the University of Virginia, November 12-15, 140 students from 15 colleges being present. J. R. Mott and F. S. Brockman represented the International Committee and rendered efficient service. It was one of the best of its kind ever held in the state.

The 16th annual State Convention was held at Richmond, February 11–14, and was attended by 336 delegates. A special feature was the Bible study, conducted by M. B. Williams, of Georgia. Two southern members of the International Committee attended, W. Woods White, of Atlanta, and John P. Pettyjohn, of Lynchburg, Va. The convention was in every way a fine success.

The sum of \$6,000 was expended for state work in 1891, and a like amount will be raised for the coming year.

E. T. Dadmun, for the past three years our efficient assistant state secretary, has resigned to enter the ministry. His successor has not yet been appointed. W. R. Haight is the new office secretary of the State Committee.

THOMAS A. JOHNSON, Cor. Mem.

WASHINGTON.

(See Oregon.)

WEST VIRGINIA.

(See Maryland.)

#### WISCONSIN.

The Associations of the state are in a prosperous condition with possibly one or two exceptions. One Association has closed up since the last report, and five new ones have been organized, viz: Wausau, Sheboygan, Janesville, Kaukauna (R. R.), and River Falls (college), making the total number now 41.

New buildings have been completed and occupied at Hurley, Fort Howard, Appleton, and Kaukauna. The building at Kaukauna was a gift to the railroad men by F. F. Thompson, of New York City, a director of the Milwaukee, Lake Shore & Western Railway Co., and the State Committee has, by request, assumed management of the work. The ten buildings now owned by the Associations have a net value of \$175,000, with furnishings valued at \$26,505. The expenses of the state work were \$8,876, and of the local Associations \$45,748. Forty-two district and local conferences were held, with gratifying results, and in nearly every place a corresponding member of the State Committee has been secured. work among the lumbermen has been prosecuted vigorously with two secretaries; more could be used to great advantage if the funds were In November Fred, B. Smith, of South Dakota, was elected second assistant, making three secretaries in the general work. With the two lumbermen's secretaries and the office secretary we have a force of six in State Committee employ. The State Convention was held in Milwaukee. the experiment of holding it in the largest city being thought desirable. It was not a success in numbers or results, and we shall probably continue the former policy of holding it in smaller towns and cities. Secretary J. R. Mott, of the International Committee, was of great assistance in our convention. Only a few changes have been made in our secretarial force, and, as a result, the year has shown decided progress. We still continue the policy of organizing Associations only in places where there is a sufficiently strong local demand to insure their maintenance and support. C. B. WILLIS, Cor. Mem.

Statement of BENJAMIN C. WETMORE, Treasurer of the International Committee of the Young Men's Christian Association, for the Year ending Dember 31, 1891.

#### SECRETARIAL SCHOOLS, AND "YOUNG MEN'S ERA."

## INTERNATIONAL Y. M. C. A. TRAINING SCHOOL, SPRINGFIELD, MASS.

State and Sherman Sts.

President-Henry S. Lee.

Treasurer-George D. Chamberlain.

Secretary-Oliver C. Morse.

Instructors in the General Course.

T. H. Hawks, D. D., James Naismith, A. B., Oliver C. Morse, R. A. Clarke, A. B., M. D.

Instructors in Secretarial Department.

J. T. Bowne, Superintendent,

F. W. Meyer.

Instructors in Physical Department.

Luther Gulick, M. D., Superintendent.

F. N. Seerley, M. D.,

A. T. Halsted, Ph. G., M. D.

#### Y. M. C. A. TRAINING SCHOOL, CHICAGO, ILL.

#### 148 Madison St.

President of Faculty—I. E. Brown.
General Secretary—John W. Hansel.
Corresponding Secretary—E. L. Hayford, M. D.
Principal, Secretarial Department—L. Wilbur Messer.
Principal, Physical Department—E. L. Hayford, M. D.

#### Instructors.

H. F. Williams, Daniel Sloan, L. B. Smith, Rev. R. R. Lloyd,

H. M. Starkey, M. D., L. E. Buell, A. B. Wegener. H. H. Wikel,

#### WESTERN SECRETARIAL INSTITUTE.

Office, 148 Madison St., Chicago, Ill. Grounds, Lake Geneva, Wis. John W. Hansel, General Secretary.

YOUNG MEN'S ERA. Editor-H. F. Williams.

## TABLE II.—BUILDINGS AND OTHER REAL ESTATE, ENDOWMENTS, Etc.

ABBREVIATIONS:-B.. Building.

L. Library.

E..Endowment.

S .. Special.

Buildings appearing for the first time in this table.
Buildings and lots owned jointly with other parties.
Buildings erected on lots not owned by the Association.

The State Committee of New Jersey owns real estate consisting of thirteen acres of ground, with buildings, near Asbury Park, valued at \$30,000, with a mortgage debt of \$6,000.

## TABLE III.—CITY AND

COMPILED FROM OFFICIAL REPORTS RECEIVED BY THE INTERNATIONAL COMMITTEE BETWEEN

JANUARY 5 AND APRIL 1, 1892.

The names of officers are the most recent that have come to the knowledge of the Committee, as far as convenience of printing pe mits their insertion. Some later changes among the paid officers of the Associations may be found in Table I., General Secretaries, etc. The Secretaries' names in SMALL CAPITALS denote General Secretaries.

## TOWN ASSOCIATIONS.

As some Associations prefer to report for their official years, closing at various dates, it is impossible to secure reports to any one date. But the reports, for the most part, are for the calen dar year, 1891. Quite a number of reports from Associations recently organized, or re-organized, are necessarily incomplete.

Religious meetings are tabulated, as far as possible, on a weekly basis.

SUMMARY,

400 College Associations are in existence.

64 have been organized this year.

376 have reported statistics of their work.

362 Report a total Membership of 24,819.

362 " an Active Membership of 18,207.

314 " 6,211 Members serving on Committeess

222 " \$30,649 paid out last year for current expenses.

137 "Rooms devoted exclusively to their use.

49 "Libraries containing 10,560 volumes.

462 " 261 Lectures or Entertainments.

170 " 381 Sociables

### THE INTERNATIONAL COMMITTEE

# Young Men's Christian Associations,

40 East Twenty-Third St., New York City.

### BIBLE STUDY.

New pamphlets by J. R. Mott and C. K. Ober, International Secretaries; L. W. Messer, Secretary Chicago Association, and Robert E. Speer, Assistant Secretary Presbyterian Board of Foreign Missions.

307. Personal Work. How organized and accomplished. Studies for Bible Training Classes. C. K. Ober and John R. Mott. 5 cents; 50 cents

per dozen.

310. Christ as a Personal Worker. Topics and Methods for Workers'
Bible Training Classes. L. Wilbur Messer. 5 cents. A new work for training classes, to be used in connection with No. 307. Prepared as a result of Mr. Messer's experience in personal work in the Chicago

Association. 5 cents; 50 cents per dozen.

311. Studies in the Gospel of Luke. Robert E. Speer. Paper, 10 cents; \$1 per dozen. Cloth, 20 cents; \$2 per dozen.

### FINANCIAL RECORD BOOKS.

Special attention is called to this new set of books. They have been carefully prepared in connection with the new edition of the Hand Book, after consultation with a number of experienced Association men. Effort has been made to adapt them to the needs of the average Association. They are described, and sample pages given, in pamphlet No. 57, "Financial Management of an Association." They are well made, best ledger paper, strongly bound in American Russia, cloth sides, and should last an Association of 500 members for five years.

- 44. Extension Fund Record Book.
- 45. Office Cash Book. \$2.25. 46. Treasurer's Cash Book. \$2.50. 47. Appropriation Book. \$2.00. 48. Subscription Register. \$1.75.

# PORTIONS OF THE REVISED HAND BOOK

### ARE PUBLISHED AS FOLLOWS:

# CAST-STEEL WORKS

OF

# FRIED. KRUPP,

ESSEN, GERMANY.

### AMERICAN OFFICE:

# 15 GOLD ST., NEW YORK.

P. O. Box, 2878.

# Represented by THOMAS PROSSER & SON.

These Works cover an area of 1,200 acres, employ about 18,000 men, have the most improved plant, and stand unique, from the fact that they have their own Ore and Coal Mines, Blast Furnaces, etc., and that *every* stage of manufacture is under their own supervision, and are not (like others) dependent on the open market for a miscellaneous assortment of crude material, which, in connection with 75 years' experience, enables them to turn out a product of a very superior quality, second to none, and at the same time the different grades of Steel are always of the *same uniform* quality.

Locomotive Tires, Steel Tired Wheels,

Axles, Crank Pins, Shafts and

Steel Forgings up to 70 Tons.

Steel of every description, Forged, Rolled, etc., into any form or article desired.

After a test of over 35 years, the "Krupp Tire" has proved itself to be the best in the market, and parties intending ordering Locomotives would do well to insert in their specifications that "Krupp Tires" be used on drivers, and thereby obtain an article which will give satisfaction.

# THE GRIFFIN CAR WHEEL CO.,

MANUFACTURERS OF

# Car Wheels and Car Castings,

Annual Capacity 75,000 Car Wheels, 7,500 Tons of Castings,

Cor. Foundry Street and M. C. R.R.,

DETROIT, MICH.

# "SPECIAL" "MACHINED" CAR WHEELS.

We make these wheels in the following diameters and weights:

42 inches,		_	_	-	1,200 pounds.		
40 '	<b>'</b>	_			1,000	"	
36 '		_		,	750	"	Double Plate or
33 '	•	_		_	600	"	Open Spoke.
30 '	6				<b>55</b> 0	"	• •
28 '	6			_	500	"	

They are offered especially for passenger and locomotive service and are made under our System of Comparative Tests, each wheel having individual tests to establish quality.

These tests prove in each case the particular conditions in each wheel, and for "Special" wheels the basis of strength is 50 per cent. higher than for standard wheels on any known test for strength—"Pennsylvania," etc.

Our 36-inch, 40-inch and 42-inch wheels are in use on some of the leading railroads, replacing steel-tired wheels. They are bored, ground absolutely true, and balanced before shipment. Further information furnished upon application by

New York Car Wheel Works, Buffalo, N. Y.

Corner Bank and West Streets, New York.
